Data protection	<p>How the views and information you give us will be used</p> <p>Any response you send us will be seen in full by Welsh Government staff dealing with the issues which this consultation is about. It may also be seen by other Welsh Government staff to help them plan future consultations.</p>

The Welsh Government intends to publish a summary of the responses to this document. We may also publish responses in full. Normally, the name and address (or part of the address) of the person or organisation who sent the response are published with the response. This helps to show that the consultation was carried out properly. If you do not want your name or address published, please tell us this in writing when you send your response. We will then blank them out.

Names or addresses we blank out might still get published later, though we do not think this would happen very often. The Freedom of Information Act 2000 and the Environmental Information Regulations 2004 allow the public to ask to see information held by many public bodies, including the Welsh Government. This includes information which has not been published. However, the law also allows us to withhold information in some circumstances. If anyone asks to see information we have withheld, we will have to decide whether to release it or not. If someone has asked for their name and address not to be published, that is an important fact we would take into account. However, there might sometimes be important reasons why we would have to reveal someone's name and address, even though they have asked for them not to be published. We would get in touch with the person and ask their views before we finally decided to reveal the information.

What is this consultation about?

At the end of 2014 the IGA was asked by the Department of Health to lead a review of the NHS Record Management Code of Practice. The Code was last reviewed in 2006, with Wales having an input to the review. Further minor updates were issued in 2009.

A newly updated version of the Code was published in England in July 2016.

This Code is a guide to be used in relation to the practice of managing records and is relevant to organisations who work within, or under contract to NHS organisations in England and Wales.

The Code is based on current legal requirements and professional best practice. It will help organisations to implement the recommendations of the Mid Staffordshire NHS Foundation Trust Public Inquiry relating to records management and transparency.

This Code of Practice replaces the previous guidance listed below:

- Records Management: NHS Code of Practice: Parts 1 and 2: 2006, revised 2009
- HSC 1999/053 – For the Record
- HSC 1998/217 – Preservation, Retention and Destruction of GP General Medical Services Records Relating to Patients (Replacement for FHSL (94)(30))
- HSC 1998/153 – Using Electronic Patient Records in Hospitals: Legal Requirements and Good Practice.

The Code forms part of a series of information governance guidance including the DH published Confidentiality: NHS Code of Practice and the Information Security Management: NHS Code of Practice.

Welsh Health Circular (2000) 71, issued 31 July 2000, provides current advice for the Welsh health boards and Trusts on managing records.

Welsh Government plan to issue an updated Welsh Health Circular which will incorporate the content of this Code. This consultation is seeking views on the clarity of the content of the Code and the future implementation of the Code in Wales.
