

Draft National Development Framework

1. NDF Outcomes (chapter 3)

Q1. The NDF has proposed 11 Outcomes as an ambition of where we want to be in 20 years' time. Overall, to what extent do you agree or disagree the 11 Outcomes are a realistic vision for the NDF?

No Response

Q2. To what extent do you agree with the 11 Outcomes as ambitions for the NDF?

No Response

2. Spatial Strategy (policies 1 - 4)

Q3. The NDF spatial strategy is a guiding framework for where large-scale change and nationally important developments will be focused over the next 20 years. To what extent do you agree or disagree with the spatial strategy and key principles for development in...

No Response

Q4. If you have any comments on the spatial strategy or key principles for development in urban and rural areas, please tell us:

No Response

3. Affordable Housing (policy 5)

Q5. The NDF sets out the approach for providing affordable housing, encouraging local authorities, social landlords, and small and medium-sized construction and building enterprises to build more homes. To what extent do you agree or disagree with the approach to increasing affordable housing?

No Response

Q6. If you disagree, in what other ways can the NDF approach the delivery of affordable housing?

No Response

4. Mobile Action Zones (policy 6)

Q7. To what extent do you agree or disagree the identification of mobile action zones will be effective in encouraging better mobile coverage?

No Response

Q8. If you disagree, in what other ways can the NDF improve mobile phone coverage in the areas which currently have limited access?

No Response

5. Low Emission Vehicles (policy 7)

Q9. To what extent do you agree or disagree that policy 7 will enable and encourage the roll-out of charging infrastructure for ultra-low emission vehicles?

No Response

Q10. If you disagree, in what other ways can the NDF enable and encourage the roll-out of charging infrastructure for ultra-low emission vehicles?

No Response

6. Green Infrastructure (policies 8 & 9)

Q11. To what extent do you agree or disagree with the approach to maintaining and enhancing biodiversity and ecological networks?

No Response

7. Renewable Energy and District Heat Networks (policies 10-15)

Q12. To what extent do you agree or disagree with the NDF's policies to lower carbon emissions in Wales using...

No Response

Q13. If you disagree with the NDF's approaches to green infrastructure, renewable energy or district heat networks, what alternative approaches should we consider to help Wales to enhance its biodiversity and transition to a low carbon economy?

No Response

8. The Regions (policy 16)

Q14. To what extent do you agree or disagree with the principle of developing Strategic Development Plans prepared at a regional scale? The NDF identifies three overall regions of Wales, each with their own distinct opportunities and challenges. These are North Wales, Mid and South West Wales, and South East Wales.

No Response

9. North Wales (policies 17-22)

Q15. We have identified Wrexham and Deeside as the main focus of development in North Wales. A new green belt will be created to manage the form of growth. A number of coastal towns are identified as having key regional roles, while we support growth and development at Holyhead Port. We will support improved transport infrastructure in the region, including a North Wales Metro, and support better connectivity with England. North West Wales is recognised as having potential to supply low-carbon energy on a strategic scale. To what extent do you agree or disagree with the proposed policies and approach for the North Region?

No Response

10. Mid and South West Wales (policies 23-26)

Q16. Swansea Bay and Llanelli is the main urban area within the region and is our preferred location for growth. We also identify a number of rural and market towns, and the four Haven Towns in Pembrokeshire, as being regionally important. The haven Waterway is nationally important and its development is supported. We support proposals for a Swansea Bay Metro. To what extent do you agree or disagree with the proposed policies and approach for the Mid and South West Region?

No Response

11. South East Wales (policies 27-33)

Q17. In South East Wales we are proposing to enhance Cardiff's role as the capital and secure more sustainable growth in Newport and the Valleys. A green belt around Newport and eastern parts of the region will support the spatial strategy and focus development on existing cities and towns. Transport Orientated Development, using locations benefitting from mainline railway and Metro stations, will shape the approach to development across the region. There is support for the growth and development of Cardiff Airport. To what extent do you agree or disagree with the proposed policies and approach for the South East Region?

No Response

Q18. If you have any comments about the NDF's approach or policies to the three regions, please tell us. If you have any alternatives, please explain them and tell us why you think they would be better.

WECA welcomes the commitment to strategic planning in the preparation of a National Development Framework which sets the direction strategic development will take across the country over the next 20 years. The West of England's consideration within the plan has been necessitated by its close economic and social relationship with SE Wales, which has been further emphasised through the agreement to return the Severn bridge to public ownership. This may support work already underway to enhance regional economic growth on either side of the border that may be augmented by the business led Western Gateway initiative recently launched by the UK Government.

Within this context, WECA supports the development strategy within policy 28 which recognises that Newport "has significant brownfield development opportunities to provide new housing and employment areas.", where the strategic development will take a regenerative approach within Newport which will thereby reduce pressure on greenfield development. The emphasis on producing housing where existing transport links exists will support the collective effort to encourage the use of sustainable transport and will further the economic links between the West of England and South-East Wales.

The NDF states in Policy 30 – Green Belts in South East Wales, "The Welsh Government requires the identification of green belts through a Strategic Development Plan to manage urban form and growth in South East Wales, particularly around Newport and the eastern part of the region. Regional plans should consider the relationship of any new green belts with the green belt around Bristol.". That green belts should help manage the effects of potential changing housing demand near the Severn crossings, and consideration of the relationship with those already established across the border, recognising that these may change over time through the development plan process, is welcomed. However, the process of green belt definition should also recognise the interaction with the transit-oriented development objectives so that new green belt does not undermine opportunities in this regard.

Any growth and development of Cardiff Airport must be managed in an environmentally sustainable and responsible way.

12. Integrated Sustainability Appraisal

Q19. As part of the consultation process, an Integrated Sustainability Appraisal (ISA) was conducted to assess the social, economic and environmental impacts of a plan. The report identified a number of monitoring indicators, including health, equalities, Welsh language, the impact on rural communities, children's rights, climate change and economic development. Do you have any comments on the findings of the Integrated Sustainability Appraisal Report? Please outline any further alternative monitoring indicators you consider would strengthen the ISA.

No Response

13. Habitats Regulations Assessment

Q20. As part of the development of the NDF, a Habitats Regulations Assessment (HRA) was undertaken. The purpose of the HRA process is to identify, assess and address any 'significant effects' of the plan on sites such as Special Areas of Conservation and Special Protection Areas for birds. Do you have any comments on the Habitats Regulations Assessment report?

No Response

14. Welsh Language

Q21. We would like to know your views on the effects that the NDF would have on the Welsh language, specifically on opportunities for people to use Welsh and on treating the Welsh language no less favourably than English. What effects do you think there would be? How could positive effects be increased, or negative effects be mitigated?

No Response

Q22. Please also explain how you believe the proposed NDF could be formulated or changed so as to have: positive effects or increased positive effects on opportunities for people to use the Welsh language and on treating the Welsh language no less favourably than the English language, and no adverse effects on opportunities for people to use the Welsh language and on treating the Welsh language no less favourably than the English language.

No Response

15. Further comments

Q23. Are there any further comments that you would like to make on the NDF, or any alternative proposals you feel we should consider?

No Response

16. Are you...?

Q24. Are you:
