Subject: Response to NDF Consultation from Mochdre with Penstrowed Community Council
Date: 30 October 2019 16:05:56
Importance: High

Dear Sirs,

I have been instructed by the Council to forward on its comments/concerns with reference to the above consultation:

There are potentially very far reaching consequences from the proposals detailed in this consultation which the Council feels are of great concern and not acceptable.

- 1) A three tier planning system would be introduced that further reduces the weight of LDPs and local democracy.
- 2) A three region administrative structure would be imposed subsuming Powys into a Swansea / Llanelli region with which we have little commonality!
- 3) Proposals commit one quarter of Powys outside of the Brecon Beacons to Priority Areas for 240m high wind turbines and many hectares of solar farms.

I trust you will give full consideration to the Council's comments/concerns in your deliberations.

Yours sincerely,

Kath Wigley CiLCA (Wales) PSLCC

Clerk/RFO to Mochdre with Penstrowed Community Council
