Dear Welsh Government,

As you know, rural Wales is widely known as one of the most beautiful places in the world. It attracts thousands of tourists. It is largely unspoilt.

More importantly, it is a special home to all the people who live in it.

I do support green energy - but there is no reason why solar and wind power stations cannot be put out to sea or placed in extremely limited areas. Please don't spoil Wales because once spoiled, its unique beauty will be gone forever!

Yours sincerely,

Professor Lucy Green
