

Consultation Response Form

Your name	Mrs C Dawes
Your address	
Preferred contact details (email/phone/post)	post
<u>Organisation (if applicable)</u>	

1. NDF Outcomes (chapter 3)

The NDF has proposed 11 Outcomes as an ambition of where we want to be in 20 years' time.

- Overall, to what extent do you agree or disagree the 11 Outcomes are a realistic vision for the NDF?

Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	<i>Don't know</i>	<i>No opinion</i>
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

- To what extent do you agree with the 11 Outcomes as ambitions for the NDF?

Agree with all of them	Agree with most of them	Agree with some of them	Agree with none of them	<i>Don't know</i>	<i>No opinion</i>
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

- If you disagree with any of the 11 Outcomes, please tell us why:

Far too many wind/solar farms.

Unacceptable that objections about impact on landscape are not "accepted" despite widespread acknowledgement that this is one of the main objections to massive scale RE sites.

No mention of infrastructure to take power from sites to main line – although this would again further impact the landscape

No mention of the back-up systems required to back up the RE

No mention of short lives of turbines

No mention of damage to ecosystems/environment by the actual RE sites themselves.

2. Spatial Strategy (policies 1 - 4)

The NDF **spatial strategy** is a guiding framework for where large-scale change and nationally important developments will be focused over the next 20 years.

- To what extent do you agree or disagree with the spatial strategy and key principles for development in...

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	<i>Don't know</i>	<i>No opinion</i>
Urban areas (Policies 1, 2 & 3)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Rural areas (Policy 4)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

- If you have any comments on the spatial strategy or key principles for development in urban and rural areas, please tell us:

Far too many wind/solar farms.
 Unacceptable that objections about impact on landscape are not "accepted" despite widespread acknowledgement that this is one of the main objections to massive scale RE sites.
 No mention of infrastructure to take power from sites to main line – although this would again further impact the landscape
 No mention of the back-up systems required to back up the RE
 No mention of short lives of turbines
 No mention of damage to ecosystems/environment by the actual RE sites themselves.

7. Renewable Energy and District Heat Networks (policies 10-15)

- To what extent do you agree or disagree with the NDF's policies to lower carbon emissions in Wales using...

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	<i>Don't know</i>	<i>No opinion</i>
Large scale wind and solar developments	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
District heat networks	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

- If you disagree with the NDF's approaches to green infrastructure, renewable energy or district heat networks, what alternative approaches should we consider to help Wales to enhance its biodiversity and transition to a low carbon economy?

Far too many wind/solar farms.
 Unacceptable that objections about impact on landscape are not "accepted" despite widespread acknowledgement that this is one of the main objections to massive scale RE sites.
 No mention of infrastructure to take power from sites to main line – although this would again further impact the landscape
 No mention of the back-up systems required to back up the RE
 No mention of short lives of turbines
 No mention of damage to ecosystems/environment by the actual RE sites themselves.

Energy/time/money/focus needs to be with own generation, not large scale any more. Need to move with rest of world and start looking after what we have.

Own homes responsible for own generation.

15. Further comments

- Are there any further comments that you would like to make on the NDF, or any alternative proposals you feel we should consider?

Far too many wind/solar farms.

Unacceptable that objections about impact on landscape are not “accepted” despite widespread acknowledgement that this is one of the main objections to massive scale RE sites.

No mention of infrastructure to take power from sites to main line – although this would again further impact the landscape

No mention of the back-up systems required to back up the RE

No mention of short lives of turbines

No mention of damage to ecosystems/environment by the actual RE sites themselves.

Energy/time/money/focus needs to be with own generation, not large scale any more. Need to move with rest of world and start looking after what we have and create self sufficiency, not destroying one thing to create another.

Own homes responsible for own generation.
