- If you disagree with any of the 11 Outcomes, please tell us why:

Disagree with the percentage of amount land suggested on the map within the draft plan for un-opposed wind/solar RE - not realistic nor acceptable.

No costs considered, no impact acknowledged and no objections to landscape allowed from the public.

Not acceptable.

2. Spatial Strategy (policies 1 - 4)

The NDF **spatial strategy** is a guiding framework for where large-scale change and nationally important developments will be focused over the next 20 years.

- If you disagree with the NDF's approaches to green infrastructure, renewable energy or district heat networks, what alternative approaches should we consider to help Wales to enhance its biodiversity and transition to a low carbon economy?

Disagree with the percentage of amount land suggested on the map within the draft plan for un-opposed wind/solar RE - not realistic nor acceptable.

No costs considered, no impact acknowledged and no objections to landscape allowed from the public. Not acceptable.

Alternative: to encourage/promote/actively support people making their own energy for their own needs. World moving towards being self sufficient and responsible for own use/needs and the rejection of over-use or waste.

15. Further comments

- Are there any further comments that you would like to make on the NDF, or any alternative proposals you feel we should consider?

This draft plan looks as if it meets the needs of large RE corporate companies, but not the future needs of the public of Wales. Wales relies on its tourism and the landscape forms part of the attraction to this area – WAG cannot simply ignore this.
