

## Consultation Response Form

Your name	Miss E Evans
Your address	<div></div>
Preferred contact details (email/phone/post)	post
<u>Organisation (if applicable)</u>	

## 1. NDF Outcomes (chapter 3)

The NDF has proposed 11 Outcomes as an ambition of where we want to be in 20 years' time.

- Overall, to what extent do you agree or disagree the 11 Outcomes are a realistic vision for the NDF?

Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	<i>Don't know</i>	<i>No opinion</i>
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

- To what extent do you agree with the 11 Outcomes as ambitions for the NDF?

Agree with all of them	Agree with most of them	Agree with some of them	Agree with none of them	<i>Don't know</i>	<i>No opinion</i>
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

- If you disagree with any of the 11 Outcomes, please tell us why:

According to plan there will be a presumption in favour of "large scale on-shore wind development" in areas of Powys and an "acceptance of landscape change" – but this would not be acceptable to the people who live in Wales. The amount of land suggested for on-shore wind needs to be dramatically reduced, and be more in line with England, – all plans should face scrutiny and be open to objections etc as part of the standard planning process.

## 2. Spatial Strategy (policies 1 - 4)

The NDF **spatial strategy** is a guiding framework for where large-scale change and nationally important developments will be focused over the next 20 years.

- To what extent do you agree or disagree with the spatial strategy and key principles for development in...

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	<i>Don't know</i>	<i>No opinion</i>
Urban areas (Policies 1, 2 & 3)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Rural areas (Policy 4)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

- If you have any comments on the spatial strategy or key principles for development in urban and rural areas, please tell us:

According to plan there will be a presumption in favour of "large scale on-shore wind development" in areas of Powys and an "acceptance of landscape change" – but this would not be acceptable to the people who live in Wales. The amount of land suggested for on-shore wind needs to be dramatically reduced, and be more in line with England – all plans should face scrutiny and be open to objections etc as part of the normal process.

## 7. Renewable Energy and District Heat Networks (policies 10-15)

- To what extent do you agree or disagree with the NDF's policies to lower carbon emissions in Wales using...

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	<i>Don't know</i>	<i>No opinion</i>
Large scale wind and solar developments	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
District heat networks	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

- If you disagree with the NDF's approaches to green infrastructure, renewable energy or district heat networks, what alternative approaches should we consider to help Wales to enhance its biodiversity and transition to a low carbon economy?

According to plan there will be a presumption in favour of "large scale on-shore wind development" in areas of Powys and an "acceptance of landscape change" – but this would not be acceptable to the people who live in Wales. The amount of land suggested for on-shore wind needs to be dramatically reduced, and be more in line with England – all plans should face scrutiny and be open to objections etc as part of the standard process.

No one project should have such a large percentage of Wales dedicated to it, especially such a controversial one. Focus has be to on own/local generation where possible.

## 15. Further comments

- Are there any further comments that you would like to make on the NDF, or any alternative proposals you feel we should consider?

No one project should have such a large percentage of Wales dedicated to it, especially such a controversial one. Focus has be to on own/local generation where possible. We need to start looking after what we already have.

No mention of preserving our last Ancient woodlands in Wales, even though a number are native broad leaf. We can't create any more ancient woodland, so plan should protect it.
