Sirs . I am writing to say how upset I am to see that the Welsh Government has plans to cover Mid Wales with even more wind turbines. I am the custodian of the Vaynor Estate between Welshpool and Newtown , a grade 1 parkland in one of the most beautiful parts of the Principality. Besides having these turbines in view, we will have to have the pylons running through the Estate.

Why is the Welsh Government even thinking of putting more pylons on land when off shore are the future- far more economical.

Yours sincerely William Corbett-Winder
