---

Dear Sirs

I write as a concerned resident of one of the highlighted areas in the Draft National Development Framework Consultation, specifically Area 5 - Powys and I would like to comment on the scheme.

Firstly, I would like to point out that I am in no way opposed to wind or solar farms being installed in this area. There is considerable local opposition, but I do not share these NIMBY concerns! What does concern me, however, is the potential installation of the cable infrastructure, particularly poles and pylons. These lack the grace and elegance of wind turbines and are simply a blot on the landscape.

So, in summary I welcome any developments in the area, be they solar or wind, BUT NOT if new pylons and poles are to be installed. If the cables can be buried (an additional expense, I do realise) then I would be happy to support any development. I suspect you will find many residents who share these concerns.

Kind regards

Mike Doughty
