---

In the strongest terms I wish to object to the plan for further wind turbines on Anglesey.  
Its obvious that the planners live a long way from Anglesey.  
There are too many turbines here already and this is one of the most popular destination for holidays.  
Keep the turbines offshore.  
I hope that public opinion is not just ignored as seems to be the case in the past.  
Faithfully  
Stephen Baker
