Subject: Mid Wales windfarm consultation
Date: 18 October 2019 17:56:57

To the NDF Team

We Mid Wales residents value the wide empty spaces and rural landscapes of our hilltops. We are bitterly opposed to further wind farms which turn these wildernesses into an industrial landscape. We do not want more pylons and power lines either, which will result from a further expansion of the onshore wind farm programme. Also, roads around Welshpool are not suitable for the extra-large vehicles that transport the turbines and cause local motorists long delays. I speak on behalf of my family and also for the many tourists who visit Mid Wales for its wild beauty. Please take our views into consideration, and keep our hilltops free of further development.

Thank you

Clare and Simon Boyes
Ornithologist and Wildlife Guide
