

National Development Framework: Easy Read questionnaire

Part A – the main points of the NDF

Q1. 1. Do you think we are aiming to do the right things with our plan?

No

Comments:

It is of course necessary to do our bit to tackle climate change and invest in green and renewable technologies to do that. What is not acceptable is riding roughshod over peoples views , opinions and indeed livelihoods with your sweeping statement "acceptance of landscape change" BEFORE the consultation has begun!!

Q2. 2. We have 10 aims in the NDF. Should we think about anything else? Tell us anything we've missed out

Yes

The NDF also needs to think about...

The FACT that a one dimensional plan will not work for allop Wales. The areas are completely different and call for different alternatives in order not to ruin the local economies of these areas. Local opinion matters, people matter and their views matter. It needs to be taken seriously.

Q3. 3. Do you think the Plan will help achieve healthy and well-planned places?

No

Q4. 4. Do you think the plan will help us take care of our environment?

No

Comments:

It willruin whole communities and the livelihoods of businesses and residents within them. More work needed.

Part B – different parts of Wales

Q5. 5. Do you agree with our plans for North Wales?

No

Comments:

There should be four regions

Q6. 6. Do you agree with our plans for Mid and South West Wales?

No

Comments:

There should be four regions in the plan. Mid Wales landscapes should be protected. The changes proposed are entirely unacceptable to us and will ruin our majority rural economy along with the businesses and jobs which go with it. The WG wants the power from Westminster in order to make decisions for Wales which are in its best interests. If so, how can you even think of doing this to an area which has Tourism and Agriculture as its main income generators...You are out of touch and need to listen to us and rethink the plan here. If we were in England our thoughts and views would matter and you would not be able to do things affecting a community without that communities consent. That is true and fair democracy.

Q7. 7. Do you agree with our plans for South East Wales?

No

Comments:

There should be four regions in the plan

Part C

Q8. 8. Do you have any other comments you would like to make about this plan?

Be democratic and listen to the views given in the consultation. Be open to change it, to add in a fourth area. To look at other ways to reduce emissions and produce clean energy; Offshore wind, biomass, tidal power eco-new builds and incentivise homeowners and business to become more energy efficient.

Submit your response

Q9. You are about to submit your response. Please ensure you are satisfied with the answers you have provided before sending.

Name Helen Cox

Where are you from? [REDACTED]

-

Q10. If you want to receive a receipt of your response, please provide an email address.
