

# Draft National Development Framework

## 1. NDF Outcomes (chapter 3)

Q1. The NDF has proposed 11 Outcomes as an ambition of where we want to be in 20 years' time. Overall, to what extent do you agree or disagree the 11 Outcomes are a realistic vision for the NDF?

Strongly disagree

Q2. To what extent do you agree with the 11 Outcomes as ambitions for the NDF?

Agree with some of them

**If you disagree with any of the 11 Outcomes, please tell us why:**

Large scale wind farms should not be situated on land and should be placed out at sea. Also why is there no tidal power suggested in the document and why was there no consultation sessions on Anglesey. The Welsh Gov needs to think carefully about the consequences of land based wind turbines !

## 2. Spatial Strategy (policies 1 - 4)

Q3. The NDF spatial strategy is a guiding framework for where large-scale change and nationally important developments will be focused over the next 20 years. To what extent do you agree or disagree with the spatial strategy and key principles for development in...

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	Don't know	No opinion
Urban areas (Policies 1, 2 & 3)			X				
Rural areas (Policy 4)					X		

Q4. If you have any comments on the spatial strategy or key principles for development in urban and rural areas, please tell us:

Why is the Welsh Gov so focused on large scale land based wind turbines - why not focus on tidal as a clean source of energy - also the Nuclear option is still viable

## 3. Affordable Housing (policy 5)

Q5. The NDF sets out the approach for providing affordable housing, encouraging local authorities, social landlords, and small and medium-sized construction and building enterprises to build more homes. To what extent do you agree or disagree with the approach to increasing affordable housing?

Agree

Q6. If you disagree, in what other ways can the NDF approach the delivery of affordable housing?

*No Response*

#### 4. Mobile Action Zones (policy 6)

Q7. To what extent do you agree or disagree the identification of mobile action zones will be effective in encouraging better mobile coverage?

Agree

Q8. If you disagree, in what other ways can the NDF improve mobile phone coverage in the areas which currently have limited access?

*No Response*

#### 5. Low Emission Vehicles (policy 7)

Q9. To what extent do you agree or disagree that policy 7 will enable and encourage the roll-out of charging infrastructure for ultra-low emission vehicles?

Agree

Q10. If you disagree, in what other ways can the NDF enable and encourage the roll-out of charging infrastructure for ultra-low emission vehicles?

We have a charging point at home and use this - however the cars still remain extremely expensive and only cover approx 50km. The cars need to be more affordable before the WAG start spending on the charging infrastructure- use the money for Health and Education which is failing miserably under the current Government!!!!

#### 6. Green Infrastructure (policies 8 & 9)

Q11. To what extent do you agree or disagree with the approach to maintaining and enhancing biodiversity and ecological networks?

Neither agree nor disagree

#### 7. Renewable Energy and District Heat Networks (policies 10-15)

Q12. To what extent do you agree or disagree with the NDF's policies to lower carbon emissions in Wales using...

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	Don't know	No opinion
Large scale wind and solar developments					X		
District heat networks			X				

Q13. If you disagree with the NDF's approaches to green infrastructure, renewable energy or district heat networks, what alternative approaches should we consider to help Wales to enhance its biodiversity and transition to a low carbon economy?

Off Shore Wind and Tidal - the Welsh Government should allow access to the proposed areas highlighted for their unrealistic vision of their renewable energy targets. STOP ☐

## 8. The Regions (policy 16)

Q14. To what extent do you agree or disagree with the principle of developing Strategic Development Plans prepared at a regional scale? The NDF identifies three overall regions of Wales, each with their own distinct opportunities and challenges. These are North Wales, Mid and South West Wales, and South East Wales.

Strongly disagree

## 9. North Wales (policies 17-22)

Q15. We have identified Wrexham and Deeside as the main focus of development in North Wales. A new green belt will be created to manage the form of growth. A number of coastal towns are identified as having key regional roles, while we support growth and development at Holyhead Port. We will support improved transport infrastructure in the region, including a North Wales Metro, and support better connectivity with England. North West Wales is recognised as having potential to supply low-carbon energy on a strategic scale. To what extent do you agree or disagree with the proposed policies and approach for the North Region?

Strongly disagree

## 10. Mid and South West Wales (policies 23-26)

Q16. Swansea Bay and Llanelli is the main urban area within the region and is our preferred location for growth. We also identify a number of rural and market towns, and the four Haven Towns in Pembrokeshire, as being regionally important. The haven Waterway is nationally important and its development is supported. We support proposals for a Swansea Bay Metro. To what extent do you agree or disagree with the proposed policies and approach for the Mid and South West Region?

Neither agree nor disagree

## 11. South East Wales (policies 27-33)

Q17. In South East Wales we are proposing to enhance Cardiff's role as the capital and secure more sustainable growth in Newport and the Valleys. A green belt around Newport and eastern parts of the region will support the spatial strategy and focus development on existing cities and towns. Transport Orientated Development, using locations benefitting from mainline railway and Metro stations, will shape the approach to development across the region. There is support for the growth and development of Cardiff Airport. To what extent do you agree or disagree with the proposed policies and approach for the South East Region?

Neither agree nor disagree

Q18. If you have any comments about the NDF's approach or policies to the three regions, please tell us. If you have any alternatives, please explain them and tell us why you think they would be better.

*No Response*

## 12. Integrated Sustainability Appraisal

Q19. As part of the consultation process, an Integrated Sustainability Appraisal (ISA) was conducted to assess the social, economic and environmental impacts of a plan. The report identified a number of monitoring indicators, including health, equalities, Welsh language, the impact on rural communities, children's rights, climate change and economic development. Do you have any comments on the findings of the Integrated Sustainability Appraisal Report? Please outline any further alternative monitoring indicators you consider would strengthen the ISA.

By highlighting central Anglesey as a large scale Wind Farm you have obviously not considered the impact upon rural communities, their health or the economic development - tourism offers great benefits to Anglesey why on earth would you choose North West Wales as an area for mass renewable projects. These projects should be placed in industrial settings - see the turbines off the M56 near to Stanlow - works well industrial setting and not out of character there !

## 13. Habitats Regulations Assessment

Q20. As part of the development of the NDF, a Habitats Regulations Assessment (HRA) was undertaken. The purpose of the HRA process is to identify, assess and address any 'significant effects' of the plan on sites such as Special Areas of Conservation and Special Protection Areas for birds. Do you have any comments on the Habitats Regulations Assessment report?

*No Response*

## 14. Welsh Language

Q21. We would like to know your views on the effects that the NDF would have on the Welsh language, specifically on opportunities for people to use Welsh and on treating the Welsh language no less favourably than English. What effects do you think there would be? How could positive effects be increased, or negative effects be mitigated?

Build more Welsh medium schools throughout Wales - provide funding to do this

Q22. Please also explain how you believe the proposed NDF could be formulated or changed so as to have: positive effects or increased positive effects on opportunities for people to use the Welsh language and on treating the Welsh language no less favourably than the English language, and no adverse effects on opportunities for people to use the Welsh language and on treating the Welsh language no less favourably than the English language.

*No Response*

## 15. Further comments

Q23. Are there any further comments that you would like to make on the NDF, or any alternative proposals you feel we should consider?

Welsh Labour seems hell bent on destroying North West Wales - the A55 is not fit for purpose so starting with that could be a good starting point. Placing industrial scale wind turbines on the Isle of Anglesey is not the way forward - maybe off shore and tidal should be considered

## 16. Are you...?

Q24. Are you:

Providing your own personal response

## Submit your response

Q25. You are about to submit your response. Please ensure you are satisfied with the answers you have provided before sending.

*No Response*

Q26. If you want to receive a receipt of your response, please provide an email address.
