

National Development Framework: Easy Read questionnaire

Part A – the main points of the NDF

Q1. 1. Do you think we are aiming to do the right things with our plan?

Yes

Comments:

City and town life has to change to be sustainable. Traffic and the right to drive where we want will have to change. Like Smoking, we will have to see that what we do is a hazard to others, not just traffic but our carbon footprint. We have the technology to have a clean transport system in the city, safe and efficient but radically different from now. A strategic asset for the future.

Q2. 2. We have 10 aims in the NDF. Should we think about anything else? Tell us anything we've missed out

The NDF also needs to think about...

Encouraging cooperatives in the rural economy. The whole of European farming relies on cooperatives. They give the farmer market strength and a business asset. A Building Society is a cooperative, a Farmers Coop should be defined in the same way, owned by the members for the members.
