

National Development Framework: Easy Read questionnaire

Part A – the main points of the NDF

Q1. 1. Do you think we are aiming to do the right things with our plan?

Yes

Comments:

This is fine as long as the burden of the projects is not only born by a few people. We can already see 29 wind turbines from our home. This is fine but we would not be happy if more were added. Although we live so close to these 2 wind farms we do not receive any direct benefit from them.

Q2. 2. We have 10 aims in the NDF. Should we think about anything else? Tell us anything we've missed out

Not sure

The NDF also needs to think about...

The plans states that we should all have access to good mobile phone signals and fast broadband access. In the area where we live there is no mobile phone signal at all and no access to broadband of any speed. Should it not be a priority for everyone to have at least basic access to these services rather than spending all the resources on upgrading existing areas of reasonable access.

Q3. 3. Do you think the Plan will help achieve healthy and well-planned places?

Not sure

Comments:

There was not enough detail on how the aims of the plans would be achieved.

Q4. 4. Do you think the plan will help us take care of our environment?

Not sure

Comments:

There is not enough detail given for us to form an opinion. Also there is no mention of proposals to tackle pollution problems for example reduction in the use of plastics and better ways to recycle what we do use already.

Part B – different parts of Wales

Q5. 5. Do you agree with our plans for North Wales?

Not sure

Comments:

We don't live in North Wales so do not know what the impact of the plans would be.

Q6. 6. Do you agree with our plans for Mid and South West Wales?

No

Comments:

Not until specific detailed proposals are produced and given to us as residents of this area.

Q7. 7. Do you agree with our plans for South East Wales?

Not sure

Comments:

We don't live in South East Wales so do not know the impact of these plans.

Part C

Q8. 8. Do you have any other comments you would like to make about this plan?

We do not agree that there should be any changes to the landscape without consultation with the people who live there. We object to the fact that the proposals assume that we automatically consent to any changes. We believe that we should be made aware of all and any changes to our direct environment as they may directly affect our living conditions and value of our property.

Submit your response

Q9. You are about to submit your response. Please ensure you are satisfied with the answers you have provided before sending.

Name

[REDACTED]

Where are you from?

[REDACTED]
