

## Consultation Response Form

Your name	Miss M Jones
Your address	<div></div>
Preferred contact details (email/phone/post)	post
<u>Organisation (if applicable)</u>	

## 1. NDF Outcomes (chapter 3)

The NDF has proposed 11 Outcomes as an ambition of where we want to be in 20 years' time.

- Overall, to what extent do you agree or disagree the 11 Outcomes are a realistic vision for the NDF?

Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	<i>Don't know</i>	<i>No opinion</i>
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

- To what extent do you agree with the 11 Outcomes as ambitions for the NDF?

Agree with all of them	Agree with most of them	Agree with some of them	Agree with none of them	<i>Don't know</i>	<i>No opinion</i>
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

- If you disagree with any of the 11 Outcomes, please tell us why:

The outcomes that I mainly disagree with is the number of windfarms/solar farms that are pencilled in for Wales (over a dozen areas). The sheer area of land allocation is not acceptable. Mid Wales landscapes should be protected.

I also strongly disagree that any minister/proposer/plan should be written for Wales, then ask for public consultation, and state that landscape objections to any subsequent planning proposals are not accepted. Surely that is incorrect? Principles of local democracy.

Also, when the RE plans are for around 1/5 of Wales, that the current proposals do not include any details of how any energy produced, would be connected to the National Grid?

Also no mention of the damage to the ecosystems involved with the enormous amount of land proposed for these projects.

## 2. Spatial Strategy (policies 1 - 4)

The NDF **spatial strategy** is a guiding framework for where large-scale change and nationally important developments will be focused over the next 20 years.

- To what extent do you agree or disagree with the spatial strategy and key principles for development in...

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	<i>Don't know</i>	<i>No opinion</i>
Urban areas (Policies 1, 2 & 3)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Rural areas (Policy 4)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

- If you have any comments on the spatial strategy or key principles for development in urban and rural areas, please tell us:

The outcomes that I mainly disagree with is the number of windfarms/solar farms that are pencilled in for Wales (over a dozen areas). The sheer area of land allocation is not acceptable. Mid Wales landscapes should be protected.

I also strongly disagree that any minister/proposer/plan should be written for Wales, then ask for public consultation, and state that landscape objections to any subsequent planning proposals are not accepted. Surely that is incorrect? Principles of local democracy.

Also, when the RE plans are for around 1/5 of Wales, that the current proposals do not include any details of how any energy produced, would be connected to the National Grid?

Also no mention of the damage to the ecosystems involved with the enormous amount of land proposed for these projects

## 7. Renewable Energy and District Heat Networks (policies 10-15)

- To what extent do you agree or disagree with the NDF's policies to lower carbon emissions in Wales using...

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	<i>Don't know</i>	<i>No opinion</i>
Large scale wind and solar developments	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
District heat networks	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

- If you disagree with the NDF's approaches to green infrastructure, renewable energy or district heat networks, what alternative approaches should we consider to help Wales to enhance its biodiversity and transition to a low carbon economy?

The outcomes that I mainly disagree with is the number of windfarms/solar farms that are pencilled in for Wales (over a dozen areas). The sheer area of land allocation is not acceptable. Mid Wales landscapes should be protected.

I also strongly disagree that any minister/proposer/plan should be written for Wales, then ask for public consultation, and state that landscape objections to any subsequent planning proposals are not accepted. Surely that is incorrect? Principles of local democracy.

Also, when the RE plans are for around 1/5 of Wales, that the current proposals do not include any details of how any energy produced, would be connected to the National Grid? Also no mention of the damage to the ecosystems involved with the enormous amount of land proposed for these projects

We need to look at a mixed bag of different solutions, from the Solar panels on homes and buildings to ground heat generation. Not all of one type, which is recognised to be inefficient, costly and obtrusive anyway.

## 15. Further comments

- Are there any further comments that you would like to make on the NDF, or any alternative proposals you feel we should consider?

The outcomes that I mainly disagree with is the number of windfarms/solar farms that are pencilled in for Wales (over a dozen areas). The sheer area of land allocation is not acceptable. Mid Wales landscapes should be protected.

I also strongly disagree that any minister/proposer/plan should be written for Wales, then ask for public consultation, and state that landscape objections to any subsequent planning proposals are not accepted. Surely that is incorrect? Principles of local democracy.

Also, when the RE plans are for around 1/5 of Wales, that the current proposals do not include any details of how any energy produced, would be connected to the National Grid? Also no mention of the damage to the ecosystems involved with the enormous amount of land proposed for these projects.

I don't think the consultation time is sufficient.
