To whom this may concern

I have comments on four policies in particular concerning Anglesey to which I am a regular visitor:

Policy 10 – Wind and Solar Energy in Priority Areas

Policy 11 – Wind and Solar Energy Outside of Priority Areas

Policy 12 – Wind and Solar Energy in National Parks and Areas of Outstanding Natural Beauty

Policy 13 – Other Renewable Energy Developments

Policies 10 and 11 cover large scale, on-shore wind and solar power, using wind turbines of up to 250 m in height. A section of central Anglesey has been selected to be a "Priority Area" where there is a presumption that developments will be allowed. Large turbines will dwarf the landscape; smaller turbines may be proposed, but to achieve the same amount of generation, significantly more will be required. I consider this will be a blight to the landscape.

SUBJECT:

Draft National Development Framework consultation

I am writing to you about the draft National Development Framework (NDF) that you are currently consulting on.

The majority of the proposed policies seem sensible and need no further comment, but four policies in particular are very concerning to residents of Anglesey:

Policy 10 – Wind and Solar Energy in Priority Areas

Policy 11 – Wind and Solar Energy Outside of Priority Areas

Policy 12 – Wind and Solar Energy in National Parks and Areas of Outstanding Natural Beauty

Policy 13 – Other Renewable Energy Developments
