

Draft National Development Framework

1. NDF Outcomes (chapter 3)

Q1. The NDF has proposed 11 Outcomes as an ambition of where we want to be in 20 years' time. Overall, to what extent do you agree or disagree the 11 Outcomes are a realistic vision for the NDF?

Agree

Q2. To what extent do you agree with the 11 Outcomes as ambitions for the NDF?

Agree with most of them

If you disagree with any of the 11 Outcomes, please tell us why:

I disagree with the policy to have a million Welsh speakers in Wales by 2050 – an increase of almost 80% on current levels. If there was a will amongst the majority of Welsh people for the language to thrive, this policy would be redundant as the language would be thriving. If there is not a will amongst the majority of Welsh people for the language to thrive, this policy is unwanted. Either way, this policy should not be included. If Wales is to play an important part in the UK and the rest of the world, speaking Welsh irrelevant when we all speak English. Policies like this alienate those of us from parts of Wales where Welsh is very rarely spoken but we still have to have intrusive signage that is double the size it needs to be, road names that the majority of people can't pronounce, and see public money being wasted on translation services.

2. Spatial Strategy (policies 1 - 4)

Q3. The NDF spatial strategy is a guiding framework for where large-scale change and nationally important developments will be focused over the next 20 years. To what extent do you agree or disagree with the spatial strategy and key principles for development in...

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	Don't know	No opinion
Urban areas (Policies 1, 2 & 3)		X					
Rural areas (Policy 4)		X					

Q4. If you have any comments on the spatial strategy or key principles for development in urban and rural areas, please tell us:

The spatial strategy image/map looks good, but raises a few questions:

- in the North, why does East-West regional connectivity end around Rhuthin, and not connect to the border or at least Deeside?

- why does the regional growth area in the north not include Rhyl and Prestatyn

- why is there no international connectivity shown from Hawarden air field? It serves the international connections for Airbus well. On the specific North Wales version on page 20 Valley is shown, but again connections from Broughton aren't. It would also be helpful to show the proximity of North Wales to Liverpool and Manchester airports.

These issues may be presentation issues for the diagram, but it seems unlikely that you would miss Cardiff off in the same way!

World Heritage sites should also be shown on the image

3. Affordable Housing (policy 5)

Q5. The NDF sets out the approach for providing affordable housing, encouraging local authorities, social landlords, and small and medium-sized construction and building enterprises to build more homes. To what extent do you agree or disagree with the approach to increasing affordable housing?

Neither agree nor disagree

Q6. If you disagree, in what other ways can the NDF approach the delivery of affordable housing?

No Response

4. Mobile Action Zones (policy 6)

Q7. To what extent do you agree or disagree the identification of mobile action zones will be effective in encouraging better mobile coverage?

Neither agree nor disagree

Q8. If you disagree, in what other ways can the NDF improve mobile phone coverage in the areas which currently have limited access?

No Response

5. Low Emission Vehicles (policy 7)

Q9. To what extent do you agree or disagree that policy 7 will enable and encourage the roll-out of charging infrastructure for ultra-low emission vehicles?

Agree

Q10. If you disagree, in what other ways can the NDF enable and encourage the roll-out of charging infrastructure for ultra-low emission vehicles?

No Response

6. Green Infrastructure (policies 8 & 9)

Q11. To what extent do you agree or disagree with the approach to maintaining and enhancing biodiversity and ecological networks?

Agree

7. Renewable Energy and District Heat Networks (policies 10-15)

Q12. To what extent do you agree or disagree with the NDF's policies to lower carbon emissions in Wales using...

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	Don't know	No opinion
Large scale wind and solar developments		X					
District heat networks							

Q13. If you disagree with the NDF's approaches to green infrastructure, renewable energy or district heat networks, what alternative approaches should we consider to help Wales to enhance its biodiversity and transition to a low carbon economy?

Its seems peculiar that offshore wind and tidal energy are not considered in such detail

8. The Regions (policy 16)

Q14. To what extent do you agree or disagree with the principle of developing Strategic Development Plans prepared at a regional scale?The NDF identifies three overall regions of Wales, each with their own distinct opportunities and challenges. These are North Wales, Mid and South West Wales, and South East Wales.

Strongly agree

9. North Wales (policies 17-22)

Q15. We have identified Wrexham and Deeside as the main focus of development in North Wales. A new green belt will be created to manage the form of growth. A number of coastal towns are identified as having key regional roles, while we support growth and development at Holyhead Port. We will support improved transport infrastructure in the region, including a North Wales Metro, and support better connectivity with England. North West Wales is recognised as having potential to supply low-carbon energy on a strategic scale. To what extent do you agree or disagree with the proposed policies and approach for the North Region?

Agree

10. Mid and South West Wales (policies 23-26)

Q16. Swansea Bay and Llanelli is the main urban area within the region and is our preferred location for growth. We also identify a number of rural and market towns, and the four Haven Towns in Pembrokeshire, as being regionally important. The haven Waterway is nationally important and its development is supported. We support proposals for a Swansea Bay Metro. To what extent do you agree or disagree with the proposed policies and approach for the Mid and South West Region?

Neither agree nor disagree

11. South East Wales (policies 27-33)

Q17. In South East Wales we are proposing to enhance Cardiff's role as the capital and secure more sustainable growth in Newport and the Valleys. A green belt around Newport and eastern parts of the region will support the spatial strategy and focus development on existing cities and towns. Transport Orientated Development, using locations benefitting from mainline railway and Metro stations, will shape the approach to development across the region. There is support for the growth and development of Cardiff Airport. To what extent do you agree or disagree with the proposed policies and approach for the South East Region?

Neither agree nor disagree

Q18. If you have any comments about the NDF's approach or policies to the three regions, please tell us. If you have any alternatives, please explain them and tell us why you think they would be better.

I have some comments on the North Wales policies:

Policy 18 - focusing managed growth along the coastal arc is very sensible approach

Policy 21 - strengthening transport links to North West England is vital for the whole of North Wales and it is important that this policy is not simply about improving links from Wrexham and Deeside with improved service levels on the Wrexham-Bidston line.

The North Wales coast line is far more important as it connects most of North Wales, including Holyhead, to Manchester, Manchester Airport, and to Crewe and beyond.

There appears to be no mention of connecting North Wales to HS2 or Northern Powerhouse Rail. This is a significant omission.

Some of the issues affecting connectivity may be outside of Wales, such as capacity on the rail network at Chester, and even as far as the Castlefield Corridor in Manchester. If needed, it benefits North Wales if Welsh money is spent on infrastructure in England.

The document mentions the ongoing pinchpoint schemes on the A55 but doesn't mention the Deeside Corridor/Ewloe Interchange which, from a commuter's perspective, is a far more important scheme.

12. Integrated Sustainability Appraisal

Q19. As part of the consultation process, an Integrated Sustainability Appraisal (ISA) was conducted to assess the social, economic and environmental impacts of a plan. The report identified a number of monitoring indicators, including health, equalities, Welsh language, the impact on rural communities, children's rights, climate change and economic development. Do you have any comments on the findings of the Integrated Sustainability Appraisal Report? Please outline any further alternative monitoring indicators you consider would strengthen the ISA.

No Response

13. Habitats Regulations Assessment

Q20. As part of the development of the NDF, a Habitats Regulations Assessment (HRA) was undertaken. The purpose of the HRA process is to identify, assess and address any 'significant effects' of the plan on sites such as Special Areas of Conservation and Special Protection Areas for birds. Do you have any comments on the Habitats Regulations Assessment report?

No Response

14. Welsh Language

Q21. We would like to know your views on the effects that the NDF would have on the Welsh language, specifically on opportunities for people to use Welsh and on treating the Welsh language no less favourably than English. What effects do you think there would be? How could positive effects be increased, or negative effects be mitigated?

Referring back to a previous answer:

I disagree with the policy to have a million Welsh speakers in Wales by 2050 – an increase of almost 80% on current levels.

If there was a will amongst the majority of Welsh people for the language to thrive, this policy would be redundant as the language would be thriving. If there is not a will amongst the majority of Welsh people for the language to thrive, this policy is unwanted. Either way, this policy should not be included.

If Wales is to play an important part in the UK and the rest of the world, speaking Welsh irrelevant when we all speak English. Policies like this alienate those of us from parts of Wales where Welsh is very rarely spoken but we still have to have intrusive signage that is double the size it needs to be, road names that the majority of people can't pronounce, and see public money being wasted on translation services.

Q22. Please also explain how you believe the proposed NDF could be formulated or changed so as to have: positive effects or increased positive effects on opportunities for people to use the Welsh language and on treating the Welsh language no less favourably than the English language, and no adverse effects on opportunities for people to use the Welsh language and on treating the Welsh language no less favourably than the English language.

No Response

15. Further comments

Q23. Are there any further comments that you would like to make on the NDF, or any alternative proposals you feel we should consider?

No Response

16. Are you...?

Q24. Are you:
