

# National Development Framework: Easy Read questionnaire

## Part A – the main points of the NDF

Q1. 1. Do you think we are aiming to do the right things with our plan?

Yes

**Comments:**

The aims are the right things but the methods of achieving them are something I disagree with

Q2. 2. We have 10 aims in the NDF. Should we think about anything else? Tell us anything we've missed out

Yes

**The NDF also needs to think about...**

Transport links are something which holds Wales back in respect of economic development

Q3. 3. Do you think the Plan will help achieve healthy and well-planned places?

No

**Comments:**

I am concerned that the plans for energy will impact on the environment affecting both wildlife and tourism. It seems to me that the cheapest option has taken priority, but we need to consider the long term effects on the environment

Q4. 4. Do you think the plan will help us take care of our environment?

No

**Comments:**

I disagree with the large number of wind turbines planned, especially in Anglesey. Anglesey depends on tourism for its economic survival, and turbines are both unsightly and noisy. I am also concerned about their effects on wildlife, and I don't think enough research has been conducted in this area. Why can't solar panels be utilised instead?

## Part B – different parts of Wales

Q5. 5. Do you agree with our plans for North Wales?

No

**Comments:**

I agree in part . The areas flagged need development but what about Holyhead in Anglesey? It's a busy port but with a very deprived population.

Q6. 6. Do you agree with our plans for Mid and South West Wales?

Yes

Q7. 7. Do you agree with our plans for South East Wales?

Yes

## Part C

Q8. 8. Do you have any other comments you would like to make about this plan?

In my opinion the plan is not designed to help Wales be a cohesive unit. I would like to see improved transport links from north to south, as well as east to west. There is a real feeling of north v south.
