

Draft National Development Framework

1. NDF Outcomes (chapter 3)

Q1. The NDF has proposed 11 Outcomes as an ambition of where we want to be in 20 years' time. Overall, to what extent do you agree or disagree the 11 Outcomes are a realistic vision for the NDF?

Strongly disagree

Q2. To what extent do you agree with the 11 Outcomes as ambitions for the NDF?

Agree with none of them

If you disagree with any of the 11 Outcomes, please tell us why:

Water is the key to power in Wales. The beauty of the area should not be desecrated by turbines which are the most useless method of power production on the agenda. Do not ruin Mid Wales with turbines, there has been quite enough already with the outcome of the Griffiths woman riding roughshod over the Powys planners, the planning inspector, and the local residents. The resulting eyesore on the Radnor landscape now stands dead, doing nothing, due to the high cost of connection to the Grid, so is actually a total waste of time and effort. Get your priorities right... Turbines do not produce sufficient resources to help. Remember also that while you are trying to help the planet, how much pollution just one single aeroplane emits when taking off....

2. Spatial Strategy (policies 1 - 4)

Q3. The NDF spatial strategy is a guiding framework for where large-scale change and nationally important developments will be focused over the next 20 years. To what extent do you agree or disagree with the spatial strategy and key principles for development in...

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	Don't know	No opinion
Urban areas (Policies 1, 2 & 3)					X		
Rural areas (Policy 4)					X		
					X		

Q4. If you have any comments on the spatial strategy or key principles for development in urban and rural areas, please tell us:

No turbines.

3. Affordable Housing (policy 5)

Q5. The NDF sets out the approach for providing affordable housing, encouraging local authorities, social landlords, and small and medium-sized construction and building enterprises to build more homes. To what extent do you agree or disagree with the approach to increasing affordable housing?

Neither agree nor disagree

Q6. If you disagree, in what other ways can the NDF approach the delivery of affordable housing?

Help the local councils, because they are in dire need of funds... The fact that they are millions of pounds in debt will do nothing for building affordable housing.

4. Mobile Action Zones (policy 6)

Q7. To what extent do you agree or disagree the identification of mobile action zones will be effective in encouraging better mobile coverage?

Strongly disagree

Q8. If you disagree, in what other ways can the NDF improve mobile phone coverage in the areas which currently have limited access?

Use satellite. The masts are it a, great idea as the frequency they emit are considered dangerous to human brains.

5. Low Emission Vehicles (policy 7)

Q9. To what extent do you agree or disagree that policy 7 will enable and encourage the roll-out of charging infrastructure for ultra-low emission vehicles?

Strongly disagree

Q10. If you disagree, in what other ways can the NDF enable and encourage the roll-out of charging infrastructure for ultra-low emission vehicles?

Electric vehicles are a waste of time. They will not save electricity but increase the demand for it, and where is all the extra power required going to come from.... Not from wind turbines, that is for sure. This policy has just not been thought through at all...

6. Green Infrastructure (policies 8 & 9)

Q11. To what extent do you agree or disagree with the approach to maintaining and enhancing biodiversity and ecological networks?

Strongly disagree

7. Renewable Energy and District Heat Networks (policies 10-15)

Q12. To what extent do you agree or disagree with the NDF's policies to lower carbon emissions in Wales using...

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree	Don't know	No opinion
Large scale wind and solar developments					X		
District heat networks					X		
					X		

Q13. If you disagree with the NDF's approaches to green infrastructure, renewable energy or district heat networks, what alternative approaches should we consider to help Wales to enhance its biodiversity and transition to a low carbon economy?

Use the water to produce power via hydroelectric means. Simple.
Turbines and electric vehicles are a hiding to nothing and will further damage the ecosystems. Use the now scrapped sea barrage to power homes, etc.
Use common sense, instead of trying to make Wales into a wasteland, with giant turbines littering the Once beautiful landscape... In twenty years time, the scrap merchants will make a fortune, by cleaning up the dead and dying windmills, consigned to history because some new technology has been found. In Germany they have a hydrogen driven train... Why not use it here in Wales?????

8. The Regions (policy 16)

Q14. To what extent do you agree or disagree with the principle of developing Strategic Development Plans prepared at a regional scale?The NDF identifies three overall regions of Wales, each with their own distinct opportunities and challenges. These are North Wales, Mid and South West Wales, and South East Wales.

Strongly disagree

9. North Wales (policies 17-22)

Q15. We have identified Wrexham and Deeside as the main focus of development in North Wales. A new green belt will be created to manage the form of growth. A number of coastal towns are identified as having key regional roles, while we support growth and development at Holyhead Port. We will support improved transport infrastructure in the region, including a North Wales Metro, and support better connectivity with England. North West Wales is recognised as having potential to supply low-carbon energy on a strategic scale.To what extent do you agree or disagree with the proposed policies and approach for the North Region?

Disagree

10. Mid and South West Wales (policies 23-26)

Q16. Swansea Bay and Llanelli is the main urban area within the region and is our preferred location for growth. We also identify a number of rural and market towns, and the four Haven Towns in Pembrokeshire, as being regionally important. The haven Waterway is nationally important and its development is supported. We support proposals for a Swansea Bay Metro. To what extent do you agree or disagree with the proposed policies and approach for the Mid and South West Region?

Neither agree nor disagree

11. South East Wales (policies 27-33)

Q17. In South East Wales we are proposing to enhance Cardiff's role as the capital and secure more sustainable growth in Newport and the Valleys. A green belt around Newport and eastern parts of the region will support the spatial strategy and focus development on existing cities and towns. Transport Orientated Development, using locations benefitting from mainline railway and Metro stations, will shape the approach to development across the region. There is support for the growth and development of Cardiff Airport. To what extent do you agree or disagree with the proposed policies and approach for the South East Region?

Neither agree nor disagree

Q18. If you have any comments about the NDF's approach or policies to the three regions, please tell us. If you have any alternatives, please explain them and tell us why you think they would be better.

Make use of hydrogen trains like they do in Germany, etc

12. Integrated Sustainability Appraisal

Q19. As part of the consultation process, an Integrated Sustainability Appraisal (ISA) was conducted to assess the social, economic and environmental impacts of a plan. The report identified a number of monitoring indicators, including health, equalities, Welsh language, the impact on rural communities, children's rights, climate change and economic development. Do you have any comments on the findings of the Integrated Sustainability Appraisal Report? Please outline any further alternative monitoring indicators you consider would strengthen the ISA.

The impact on rural communities has been grossly underestimated.

13. Habitats Regulations Assessment

Q20. As part of the development of the NDF, a Habitats Regulations Assessment (HRA) was undertaken. The purpose of the HRA process is to identify, assess and address any 'significant effects' of the plan on sites such as Special Areas of Conservation and Special Protection Areas for birds. Do you have any comments on the Habitats Regulations Assessment report?

Employ people who do know what they are on about. Too often in such instances, these so called 'experts' know nothing about nor understand it is what they are employed to do, thereby defeating the object of the exercise.

14. Welsh Language

Q21. We would like to know your views on the effects that the NDF would have on the Welsh language, specifically on opportunities for people to use Welsh and on treating the Welsh language no less favourably than English. What effects do you think there would be? How could positive effects be increased, or negative effects be mitigated?

No comment.

Q22. Please also explain how you believe the proposed NDF could be formulated or changed so as to have: positive effects or increased positive effects on opportunities for people to use the Welsh language and on treating the Welsh language no less favourably than the English language, and no adverse effects on opportunities for people to use the Welsh language and on treating the Welsh language no less favourably than the English language.

No comment.

15. Further comments

Q23. Are there any further comments that you would like to make on the NDF, or any alternative proposals you feel we should consider?

Use water, not windmills. Use hydrogen powered vehicles, not electric ones. Keep the windmills away from the hills of Mid Wales

16. Are you...?

Q24. Are you:

Providing your own personal response

Submit your response

Q25. You are about to submit your response. Please ensure you are satisfied with the answers you have provided before sending.

Name AM JONES

Organisation (if applicable) -

Preferred contact details (email/phone/post) Post

Q26. If you want to receive a receipt of your response, please provide an email address.
