

National Development Framework: Easy Read questionnaire

Part A – the main points of the NDF

Q1. 1. Do you think we are aiming to do the right things with our plan?

No

Comments:

It is an ill thought out plan with no concern for the human body and the fact that subsonic noise could have negative effects on the human body, such as disturbed sensory perception or circulatory problems does not seem to have figured, or considered important enough, in your plans

Q2. 2. We have 10 aims in the NDF. Should we think about anything else? Tell us anything we've missed out

Yes

The NDF also needs to think about...

my comment in 1 above, as well as the constant destruction, maiming and reduction in the numbers of bats and birds, as well as killing off tourism which will then kill of valuable income for the Powys county as a whole

Q3. 3. Do you think the Plan will help achieve healthy and well-planned places?

No

Comments:

Really! These things will never help to achieve healthy and well-planned places. See 1 and 2 above

Q4. 4. Do you think the plan will help us take care of our environment?

No

Comments:

If energy regeneration is so important then solar panels are a far better option, don't cause the same horrible effects on the human body, and far fewer are required to produce a great amount of electricity superceding that of any turbine.

Part B – different parts of Wales
