Subject: National Development Framework Consultation
Date: 19 October 2019 13:01:38

Hi,

i would just like to add my support to the proposed National Development Framework. As a local to mid wales i understand the benefits and opportunities associated with the current plan. The plan would bring much needed job opportunities, business and financial opportunities to the people of mid wales along with much needed infrastructure upgrades to electric and road networks which again will benefit and boost the local economies in the long term.

Regards

David Williams
