I wish to object in the strongest possible manner to the proposal that local democracy be overturned in mid wales. The idea that local people will not be able to object to wind farm developments of three or more turbines (10MW) beggars belief. Locallly, already, historic footpaths and bridle ways have been ruined by the industrialisation of the beautiful uplands, affecting our wellbeing, our tourism industry, dividing the local community and destroying natural habitat and wildlife. Nobody in Cardiff should have the right to overturn the views of the majority of local people, now being threatened by the prospect of even more industrialisation of our natural heritage.

Cecilia Whittlesea MBE
