Subject: Kiss Cader Idris Goodbye

Sent from my iPad. Please ask your readers to telephone 0300-025-3261 and ask for the consultation papers on destroying the Welsh Landscape. They will definitely know what you are requesting .Less than ten years ago I could see across the full width of Wales from Llandyssil to Cader Idris and was well chuffed to do so. Unfortunately this spectacular view for many has been spoilt . At least six massive wind turbines have been built reducing the view of the big “M” Cader Idris . The Labour Party plan to destroy the Welsh Landscape is almost unthinkable and unbelievable , but remember the ill conceived Tan 8 by Carwyn Jones to mess up Mid Wales . The new attempt by the Labour Party to trash the Welsh Landscape is far worse. Some people need to decide wether they love Wales or the Labour Party. When I lived in Shropshire I always voted Labour even when we had a very good Conservative MP John Biffen . However living and voting in Wales I have to vote Conservative as they are the only choice to stop our country being trashed by massive eye sore turbines , power lines and large connecting electrical hub installations. The consultation deadline is fast approaching to get your much needed objections in. 1 November 2019 . I believe the consultation process is already flawed in its

minimalist roll out and ability to download PDFs as i and other people have found out . Just telephone 0300- 025 - 3261 and ask them to send you a copy first class post because of the imminent deadline . I am 74 years of age and could just say f... .t but future generations have a great deal to lose if this apocalyptic consultation gets approved . My big concern is that this Welsh Labour Party does not even wish to uphold the last referendum result . We have a very good AM in Russell George who is doing his very best to stop this unfolding mess so get your objections in ASAP. It pains me to say the Conservative Party is the only party to save the Welsh Landscape. You can also write your response to NDF Team , Planning Policy Branch , Welsh Government, Cathays Park , Cardiff , CF10 3NQ. J Rowland Llandyssil
