I wish to comment on the above as follows;

I object to the designation of further areas in mid Wales for large scale wind development.

Mid Wales already has more than its fair share and the proposals to build more takes no account of the CUMULATIVE impact of adding more to the existing ones, particularly the impact on tourism, the road network and the gradual industrialisation of our landscape.

The new areas designated are wild, remote and beautiful. Their loss would be irreplaceable.

Alec White
