

Llwybr Newydd – Draft Wales Transport Strategy on a Page

Llywodraeth Cymru
Welsh Government

OUR VISION

An accessible, sustainable transport system

OUR 20-YEAR AMBITIONS

Good for people and communities

By delivering services people can use, and want to use, which contribute to wider equality, health goals including addressing the barriers that stop people accessing transport.

Good for the environment

By significantly reducing greenhouse gas emissions, improving air quality, creating resilient ecosystems.

Good for places and the economy

Supports key sectors and the Welsh supply chain and innovates so people and businesses can make sustainable transport choices.

Good for culture and language in Wales

By creating more opportunities for people to engage with language and culture, and through protecting and promoting the distinct culture and language of Wales.

OUR 5-YEAR PRIORITIES

In order to deliver these ambitions we will:

- 1 Significantly reduce greenhouse gas emissions by planning for physical and digital connectivity, more local services, more home and remote working and more active travel, so that fewer people need to use their cars on a daily basis

But where people and businesses do need to travel, we will provide more sustainable choices based on:

- 2 Public transport service's that everyone can use, wants to use to use and does use, and
- 3 Safe, accessible and well maintained transport infrastructure that supports sustainable transport choices

We also need to drive modal shift and behaviour change by:

- 4 Making sustainable transport options more attractive to people and businesses
- 5 Supporting innovations that help people and businesses adopt more sustainable transport choices

WHAT WE WILL MEASURE

Social impact

Environmental Impact

Economic Impact

Impact on language & culture

HOW WE WILL DELIVER

Investing sustainably

Delivery and action plans

Working in partnership

Creating better governance and policies

Building capacity and skills

Holding ourselves and our partners to account

TRANSPORT MODES AND SECTORS

Walking and Cycling

Bus

Rail

Roads, streets and parking

Third sector

Taxis and PHV

Freight and logistics

Ports and maritime transport

Aviation

FUTURE GENERATIONS WAYS OF WORKING

INVOLVEMENT

People first – Listening to and involving users

INTEGRATION

Transport as a system and enabler

PREVENTION

Preventing future social and environmental problems

COLLABORATION

Working across policy agendas

LONG TERM

Flexible and responsive
