

Welsh Government
White Paper on Ending Homelessness in Wales Consultation
Young People's Responses

Making systems easier

Proposal: We want to remove the Relief Duty which means local authorities have to find people accommodation for at least 6 months.

Everyone who's at risk of homelessness will get ongoing support and interim accommodation so we don't need this anymore.

Proposal: We want to set out clearly what an unreasonable failure to cooperate is, and what it isn't.

Being homeless can have a huge effect on people's lives and we want to limit the application of the unreasonable failure to cooperate test. We want to set out clearly that unreasonable means:

- threatening behaviour towards staff,
- consistent non-contact with housing services,

Communication

Proposal: We want local authorities to communicate with people in ways that are easy to understand and meet their needs.

Making sure services work together better

Ending homelessness together

Proposal: We want services like social services, local health boards, prisons and Job Centres to work together with housing teams. We want them to:

- identify if someone is at risk of homelessness and refer them for support
- take the action they can to help someone avoid homelessness
- work locally and across regions
- support people with complex needs to find the right housing.

Ending homelessness is everyone's responsibility. We want services working together, looking at someone's whole situation and referring them to housing services when they need help.

Supporting disabled people

Proposal: We want all local authorities to have a register (list) of housing that can meet the needs of disabled people.

Supporting veterans

Proposal: We want all local authorities to understand and support the needs of Veterans and their families, and involve them in decisions that affect their lives.

Supporting adults in the Criminal Justice System

Proposal: We want to make sure people get an assessment of their housing needs when they go to prison so they don't face becoming homeless when they leave.

Proposal: We want to make sure all parts of the local authority help children who've been in the youth custody system and are preparing for release.

Unacceptable behaviour test

Proposal: We want local authorities to be able to stop people having social housing if they are abusive or guilty of unacceptable behaviour.

Being fair

Proposal: We want local authorities to have a 'Deliberate Manipulation Test' that they can use before someone gets social housing.

Even though local authorities will still have a duty to find them accommodation, we don't want people to become homeless on purpose so they can jump the list and get social housing sooner. That isn't fair.

More housing options

Proposal: We want local authorities to have more housing options they can offer like:

- supported lodgings
- supported accommodation
- returning to previous accommodation, including the family home, if this is safe.

? Questions

Systems

Proposal: We want to use the systems that each local authority has to deliver these changes.

The systems we have right now, work well:

- Local authorities know their areas, they run homelessness services and allocate accommodation. They check how they work, deal with complaints and make sure people get the right support.
- There are already organisations in place who check that services and accommodation are good.
- If there are concerns, the Public Services Ombudsman for Wales (PSOW) can investigate.
- We want to find other existing ways we can support our changes

Gathering information

Proposal: We want to have the power to ask for data collected by local authorities.

We need to understand homelessness better. Information about the number of people needing support across Wales, how services work, and other things would help us meet people's needs and plan for the future.

Everyone who is homeless will be at ease that they have somewhere safe to live for at least the 6 months.

Is there anything we've missed?

I think people who are homeless should have the choice to be able to talk to someone - therapy/counselling.

Questions

What do you think of the proposals in this section?

Happy Okay Unhappy Don't know
Why?

People who go to prison get their punishment in prison or by going there so when they come out they should have most support, as everyone should.

Is there anything we've missed?

Everyone deserves a chance to explain themselves and express how they feel.

Unacceptable behaviour test

Proposal: We want local authorities to be able to stop people having social housing if they are abusive or guilty of unacceptable behaviour.
