

Superfast broadband has arrived in Wales

SUPERFAST
CYFLYMU
CYMRU

Wales has the **highest** availability of superfast broadband amongst the devolved nations. (Ofcom Report August 2015)

Across Wales, to date, over

565,000

homes and businesses can access superfast broadband thanks to **Superfast Cymru.**

Superfast Cymru

is bringing superfast broadband speeds to areas which would otherwise not receive it.

Some areas of Wales have gone from **0** to over **75%** availability of superfast broadband thanks to Superfast Cymru.

Over **96%** of premises in **Blaenau Gwent** now have access.

So far, over **84%** of premises in **Conwy** can now access superfast speeds.

All **local authorities** in Wales now have some access to superfast broadband.

Over **75%** of premises on **Anglesey** now have access.
