Introduction

The 3rd UK Open Government National Action Plan was published in May 2016. This plan set out commitments to open government in the UK and the ambitions of the UK Government for the next 2 years.

This updated version of the 3rd Open Government National Action Plan includes new commitments from each of the devolved administrations: the Northern Ireland Executive, the Scottish Government and the Welsh Government. This demonstrates that we are committed to being open and transparent.

We all believe that an open government is a better government:

- more accountable and responsive to people
- receptive to new ideas and better-able to implement them
- best-placed to capitalise on the talents, expertise and energy of citizens, civil society and businesses to create a better, stronger society for all

This plan has been co-created with members of civil society and active citizens, coordinated through our open government networks. We're committed to continue to work with civil society to both implement and develop commitments in future.

Commitment 1: Open data plan

“ Develop and implement an open data plan for Welsh Government and work towards achieving the commitments outlined within the plan. ”

This document was downloaded from GOV.WALES and may not be the latest version.

Objective

To develop a plan that outlines Welsh Government's ongoing commitment to open data and increase awareness of open data across Welsh Government.

Status quo

Within Welsh Government we are already striving to increase the accessibility to our data through websites such as Lle and StatsWales. However there is more that can be done to increase the openness and transparency of our data.

There also needs to be greater awareness of the potential opportunities and benefits that open data can provide to the people of Wales, businesses, the public service sector and Welsh Government. Implementation of our Open Data Plan and its commitments should help address these issues.

Ambition

Whilst work is already ongoing in the field of open data within Welsh Government we hope that implementation of this Open Data Plan will raise awareness, consolidate ongoing work and demonstrate Welsh Government's commitment to open data. The plan will hopefully also provide a practical opportunity to work with and encourage public service organisations to increase their publication and use of open data.

Commitment 2: Open data service

“ Develop an Open Data Service for Wales with a focus on helping improve public services. ”

Objective

To increase the openness and amount of data about Wales that is published by Welsh Government and other public sector bodies.

Status quo

Only a subset of data about Wales held by Welsh Government and other public sector partners is currently published.

Ambition

Developing an Open Data Service for Wales will increase the accessibility and the amount of data published by Welsh Government and other public sector bodies in Wales. Furthermore making more data openly available will hopefully help improve public services in Wales.

Ongoing

Other actors involved: government

Welsh Government initiative publishing data for Wales, some of which may emanate from other government departments.

Other actors involved: CSOs, private sector, working groups, multilaterals, etc.

Users have been involved in the development of the StatsWales site, e.g. providing feedback, and being updated in various user forums. This has included our user group covering the third sector.

We're working to allow other public sector partners to publish via StatsWales with their own logo. To date only the Welsh Language Commissioner has done so.

This document was downloaded from GOV.WALES and may not be the latest version.

Open data catalogue produced	Ongoing	October 2016	December 2016

Commitment 3: StatsWales

“ Develop StatsWales, the Welsh Government’s online repository for detailed statistical data, to increase its openness rating to 4* . ”

Objective

To increase the openness and amount of structured data that is published by Welsh Government and other public sector bodies.

This document was downloaded from GOV.WALES and may not be the latest version.

Go to <https://gov.wales/uk-open-government-national-action-plan-2016-2018-welsh-government-commitments-html> for the latest version.

Get [information on copyright](#).

Status quo

Only a subset of data about Wales held by Welsh Government and other public sector partners is currently published. Whilst StatsWales publishes structured data openly there is a need to increase its openness rating.

Ambition

Through this commitment we will improve the openness of data published by Welsh Government, enabling our data to be freely shared and used by others.

Commitment 4: Administrative Data Research Centre Wales

“ In partnership with the Administrative Data Research Centre Wales, the Welsh Government will work to ensure that access to government datasets is available in a secure and safe manner for the purposes of academic and public sector research. Furthermore, such access is promoted to maximise the use of such data for research that is published and made available to support better decisions. ”

Objective

Secure and ethical access to data held by government to accredited academic and public sector researchers in approved safe environments with appropriate controls in place, leading to published research for the public good.

Status quo

To overcome barriers to access to data for academic or public sector research purposes.

Ambition

Through this commitment we will improve the public value of government data by ensuring it is available to use to produce high quality, published, research that will inform public policy and improve the lives of citizens.

Commitment 5: Government Social Research Publication Protocol

“ Welsh Government will continue to publish government research according to the Government Social Research Publication Protocol, with reports pre-announced and published on the ‘Statistics & Research’ pages of the Welsh Government website. Publication of social research reports, according to the GSR publication protocol, is a key part of the Welsh Government Principles for Research and Evaluation. ”

Objective

To publish research according to the Government Social Research publication

protocol.

Status quo

The Government Social Research publication protocol has been adopted to increase the transparency of evidence used by the Welsh Government.

Ambition

Publication of research puts the evidence Government uses in its decisions in the public domain and also provides research findings useful for other public and third sector bodies to inform their own decision making.

Leading implementing organisation

Welsh Government

Timeline

While the GSR publication protocol has been in use by Welsh Government since its introduction in 2010, there has been ministerial commitment to the use of the protocol from March 2014.

consultation service. ”

Objective

Build a new GOV.WALES to improve access to Welsh Government information and services.

Status quo

The Welsh Government publishes information on more than 150 websites. Information is presented inconsistently and is sometimes duplicated. Users do not know whether they have found all Welsh Government information on a particular issue.

Ambition

GOV.WALES will accommodate practically all Welsh Government information and services, making it easier for users to understand what we do and how we are performing. It will provide a clearer picture of the public sector in Wales, increasing accountability by allowing the public to see and access those bodies that are working on their behalf. The new consultations service will provide a better way for the public to participate in our decision-making process.

Commitment 7: Code of Practice for Ethical Employment in Supply Chains

“ Welsh Government will develop a code for ethical supply chain behaviour, that will ensure awareness and understanding of actions to mitigate against ethical supply chain issues. ”

Objective

To achieve high levels of sign-up to 12 commitments aimed at promoting the legal and ethical treatment of workers.

This document was downloaded from GOV.WALES and may not be the latest version.

Go to <https://gov.wales/uk-open-government-national-action-plan-2016-2018-welsh-government-commitments-html> for the latest version.

Get [information on copyright](#).

Status quo

Unethical and illegal treatment of workers in public sector supply chains.

Ambition

One ambition of this piece of work is to raise awareness of the prevalence of modern slavery in our supply chains and take actions to address areas of high risk.

Another ambition is to raise and level the playing field in Wales so that suppliers that wish to employ workers ethically are not disadvantaged in bidding for public contracts.

A 3rd ambition is to encourage the more widespread adoption of the Living Wage Foundation's Living Wage (based on the costs of living).

Commitment 8: Well-being of Future Generations Act – National Indicators for Wales

“ To measure progress towards the achievement of the seven well-being goals for Wales set out in the Well-being of Future Generations (Wales) Act 2015, and report on them annually. ”

Objective

In order to improve the social, economic, environmental and cultural well-being of Wales the Welsh Government has developed a set of National Indicators to measure progress against the 7 well-being goals outlined in the Well-being of Future Generations (Wales) Act 2015. In doing so an open and transparent approach is being taken in the development and communication of the National Indicators and the data that underpins them.

Status quo

Measuring national progress against the seven well-being goals for Wales set out in the Well-being of Future Generations (Wales) Act 2015.

This document was downloaded from GOV.WALES and may not be the latest version.

Get [information on copyright](#).

Ambition

If we are to collectively achieve the seven well-being goals set out in the Well-being of Future Generations (Wales) Act 2015, we need a way of measuring, at a national level, what progress is being made. The 46 National Indicators for Wales are intended to measure progress against the 7 well-being goals and have been prepared following public consultation. They will be reported on annually through a 'Well-being Report for Wales'.

Get [information on copyright](#).

Objective

Requiring public bodies to do things in pursuit of the economic, social, environmental and cultural well-being of Wales in a way that accords with the sustainable development principle; to require public bodies to report on such action.

Status quo

A more consistent approach across the public sector to decision making affecting the well-being of Wales.

Ambition

It will place a legal duty on specified public bodies to take account of the importance of involving people that reflect the diversity of the population in their decision making.
