## **End of Life Appliances**

Following the issue of CFOA Circular 2014-10 regarding the Environment Agency regulatory position statement on end of life vehicles (ELV) used for training, Welsh Government officials have been liaising with colleagues from Natural Resources Wales (NRW) to confirm Wales' position.

NRW has now made a regulatory decision regarding the use of end of life vehicles and other controlled wastes for training purposes by the emergency services and armed forces.

I would like to draw your attention to the correspondence from National Resources Wales attached.
