The links between the North West of England
is Manchester and Liverpool
Although the train routes from North and South could
be improved in my opinion is that the route on the
West coast is a total waste of Time
I feel that Cardiff is remote from North and their
policies still are around are the south party of Wales
and that north is an after thought
I feel that the Welsh Language policy is against
any English speaking Welsh person and that know
that second rate people are employed for only one
reason that is that they can speak Welsh.
On broadband to provide it in the ~~real~~ real
and ~~on~~ to some property cost about £10000 to them. How
pays. The fact that if you want better mobile signal is the
most must be allow to a height of 35metre and not 25.
without planning permission.
