Subject: RE: Festival UK 2022 - R&D Panel

Hi
Yes, happy to help out. Late October is already looking pretty congested, but I could currently manage the following afternoons:

20, 23, 26, 30 October.

Hope this helps.

I'll give some thought to BAME people who might be prepared to join such a panel. You'll need to be prepared to pay a 'fee' for their involvement. People are becoming more assertive (understandably) about being paid for their time and expertise when they're being asked to help in this way. (We're already doing this.)

Hope all's well with you and that you're not drowning in CRF applications...

Best

Hi

With one of my other hats on – we are setting up a panel that will appraise the team EOI applications for Festival UK 2022 and make recommendations to Ministers on which R&D projects should progress to the next stage and be awarded £100k.

We would like you to join the panel and to provide views on the arts side of any team application, this will require an afternoon of your time towards the end of October, would you be happy to commit to this, an invitation will follow if you are.

Also we are hoping to have a diverse panel as possible so if you know of any individuals with a BAME background that would be a good addition to this panel could you please suggest a few names?

Thanks

Subject: (All_Ext) - UK Festival of Creativity & Innovation 2022 - Stakeholder Presentation on Wednesday 27 November

Hi , hope all well with you?

As mentioned when we met recently, we've been liaising with DCMS officials regarding the planning of Festival 2022.

The team leading (2 officials, and from the Birmingham 2022 Commonwealth Games LOC, who has been appointed Festival 2022 Director as well) are coming to present to the Deputy Minister on Wednesday 27 November from 11-12.30 in Ty Hywel, Cardiff Bay.

The same presentation is being made to the NI Executive next week and to the Scottish Government the week after the Wales meeting.

Would you be available to join the meeting, representing the wider

Stakeholders? We are not opening this up further at this stage, as it is still early in the conversations with DCMS about how the Festival could be coordinated across the UK, what vision is for the Festival and of course, how we could make the proposed Festival work in Wales.

Look forward to hearing from you, apologies for the short notice in the date-

Thanks

Subject: Festival 22* - Ministers agreed Wales Participation

Dear ,

I have been asked to drop you a line. You may already know about the festival, if not following is some brief detail.

Festival 22

This is a major nationwide festival showcasing the UK's strengths in creativity and innovation. The First Minister and Deputy Minister Culture, Sport and Tourism have very recently agreed that Wales will participate in this Festival and Creative Wales has been asked to lead the process.

Festival 2022 is inviting expressions of interest from CREATIVE TEAMS for a funded R&D project to originate compelling, and ambitious public engagement acts, on a global scale which will feature in the UK festival in 2022. This is an open call to Scientists, Technologists, Engineers, Artists, Mathematicians to combine their creativity and develop big ideas.

The Festival will be launched across the UK on 2 September and we will be amplifying their communications activity and promote the R&D call across STEM, cultural and arts sectors across Wales.

We are hoping you could provide us with some key contacts from your sector. We would like to brief them of the opportunity. We are currently looking at hosting a virtual event in early September. It would also be useful and much appreciated if you could also promote the Festival and R&D call via your channels. If you could provide an appropriate marketing and comms contact we can liaise with them.

It is a very short lead time to communicate and engage on this so we appreciate your help and support. I am on leave from tomorrow, but if you would like to discuss further is back from leave on Monday.

Cofion Cynnes, Kind Regards,

From: @gov.wales>

Subject: Re: Festival UK 2022 - Creative Wales - STEAM Mailing List

Annwyl ,

Many thanks.

Great to be working together again.

My appointment has not yet been announced – when it has I will let you all know.

I've sent a generic note about F 2022 to all my Welsh STEM contacts, including CBI, Welsh business etc etc.

Is it worth trying to get [redacted] on BBC Wales – TV and Radio – and ITV Wales - this week to remind everyone about the closing date?

I heard [redacted] on Front Row on R4 last month. It was very good but niche.

My concern is getting the STEM sectors in Wales to know about this – the Arts are well used to this sort of opportunity and usually respond well.

[redacted] and I both agree the timescale is incredibly tight.

Let me know what I can do to help.

My first Board meeting is pencilled for October 30th.

Cofion,

Subject: Festival UK 2022 - Creative Wales - STEAM Mailing List

Dear [redacted],

Trust this email finds you well. I understand you are our UK Board member for Festival UK* 2022, so great to have you on board in this key role for Wales.

[redacted] asked me to send you a list of external stakeholders we have engaged with regarding the R&D open call for teams for the Festival. We also engaged with numerous internal WG colleagues across the STEAM sectors. These are not included on the list but I can provide them if needed.

Due to GDPR please review this list in your capacity of Wales Board member for Festival UK* 2022 but please do not pass on to any third parties nor use directly to contact those on the list.

If you need any information or Festival assets to send on to additional contacts you may have please let me know and I can help. For information the R&D open call for teams closes at 15:00 on Friday 16 October.

Great that our paths cross again. Seems a long time since my days in WG Transport working with you and Airport colleagues on comms, marketing and events.

Have a good day.

Subject: Re: Festival UK 2022 - Creative Wales - STEAM Mailing List

Hi [redacted].

Thanks for the note.

Well done.

Yes I appreciate it's a tough one to get media interest – everyone is focussed on the pandemic – 2022 seems a long way off.

I have had official confirmation of my appointment but I don't think it will be official until the first Board meeting – end of October/start November.

I'm catching up with later this week.

Cofion,

Subject: RE: Festival UK 2022 - Creative Wales - STEAM Mailing List

Hello ,

Thank you for sending a note to your Welsh STEM and CBI contacts. We have used many STEM colleagues in Welsh Government to push out information via their networks. Also we've used our academic networks and Business Wales amongst others to promote the Festival. We are hopeful that this will be reflected in the team applications.

Unfortunately we have found there is little media appetite for Festival UK* 2022 in Wales. We have posted '1 week to closing date reminders' on our Creative Wales Twitter account last Friday and will have another push mid this week. Business Wales and many other stakeholders are amplifying our messages.

Please do let me know when your appointment has been announced.

Kind Regards,
