Subject: A470 Lack of provision of passing places Llanidloes to Newtown

Dear Ken

You may be aware of an on-going matter of the lack of provision for passing places and laybys on the A470 from Llanidloes to Newtown. The Llanidloes Without Community Council has received a number of complaints over this issue which causes much frustration for drivers when they are following slow moving vehicles and are unable to overtake due to oncoming traffic. I have written to your predecessor previously, this still remains an issue for the Community Council and for my constituents.

I would be grateful if you could consider meeting with the Community Council or agree to ask a Senior Official to meet with them and discuss the lack of provision of passing places on this section of the trunk road.

If agreeable, my office would be able to provide details of the clerk of the community council

Best regards
