Vicky,

please see attached. We need to get a Holding Direction drafted asap please. Given Nick's current workload would this be one for Ceri to look at?

Lewis, we mentioned this application at our meeting with Alan this morning. They are asking for call-in and suggesting it should be looked at under the DNS process instead. Maybe we could have a quick chat sometime this week when you are able?

Thanks,
Teresa

Hi both

This has just come through. We are probably going to need a holding direction to give us time to consider.
