

ENRaW Domestic - Large Scale Combined Capital and Revenue Grant

Lead Partner	Project name	Project Summary	Total Funding awarded by Welsh Government	Match Funding
Denbighshire County Council	Well Connected providing Opportunities for All	Creating a Green/Blue Corridor linking and improving Natural Resources across the three counties of Denbighshire, Flintshire and Conwy.	£712,506.02	£548,150.00
Wrexham County Borough Council	Wrexham Green Infrastructure Project	The project aims to - <ul style="list-style-type: none"> • Improve green infrastructure within some of the most deprived wards in Wrexham. • Create dense, structural tree planting to reduce the noise and air pollution effects of heavy traffic along a key arterial transport route into Wrexham. • Develop volunteer networks within Wrexham to engage the community in caring for and improving the environmental quality of their green space. 	£468,748.50	£36,167.00
National Botanic Garden of Wales	Biophilic Wales	This pan-Wales project will increase the well-being of people, biodiversity and the environment, throughout Wales, using three interconnected work packages. We will create volunteer groups that will work throughout all aspects of our project and use innovative public engagement to connect people to their natural heritage. We will improve green infrastructure in the places where people can benefit from it the most.	£920,763.86	£286,767.00
Groundwork Wales	'We Care' / Gwarchod Cymunedau': We Educate Communities and Regenerate Environments	The 'We Care' Partnership programme will connect the most socially and economically disadvantaged communities in Wales with their local environment, increasing the capacity of communities to conserve, enhance, and benefit from, their green spaces and natural resources.	£943,136.00	£0.00

Pembrokeshire Coast National Park Authority	Sustainable Stitch in Time	Invasive non-native species (INNS) are known to have a significant impact on the environment, economy and wellbeing of the people of Wales. The 'Sustainable Stitch in Time' project focuses on addressing some of the challenges faced across Wales in tackling INNS in a sustainable way.	£149,587.00	£35,000.00
Plantlife Cymru	Magnificent Meadows Gweirgloddiau Gwych	Magnificent Meadows is a partnership and community engagement project that will restore a network of meadows and engage directly with over 20,000 people. Three complementary programmes will connect people with local meadows, improve management and skills and leave a valuable legacy of resources for the future.	£817,699.11	£421,996.50
Llais y Goedwig	Voice of the Woodlands: Llais y Goedwig - new pathways to collaboration for people and trees	Voice of the Woodlands will forge new links between Woodland Groups and Landowners in public and private sectors across Wales whilst consolidating existing links. The project will explore new ways of working and develop tools and resources to help remove existing barriers and build capacity on both sides – increasing the scope and quality of woodlands management by and for communities, enhancing biodiversity and maximising health and Wellbeing benefits.	£637,964.75	£0.00
Welsh Water	Llanishen & Lisvane Reservoirs	The Llanishen & Lisvane Reservoirs project brings together new partners from 3 sectors: water utility, statutory and voluntary. The project will create a hub for health & wellbeing, reconnecting people with water and our beautiful environment; whilst maintaining, protecting and enhancing the ecological value of the site.	£930,881.52	£654,000.00
Wales Council for Voluntary Action (WCVA)	Local Nature Partnerships Cymru	This project is a new collaboration between Wales Biodiversity Partnership, WCVA, local authorities, National Parks Authorities and the Local Environment Records Centres which aims to make a long-term, sustainable difference to nature recovery through co-ordinating and enabling informed, evidence-driven collaborative action.	£2,413,740.46	£2,208,009.10

Blaenau Gwent County Borough Council	A Resilient Greater Gwent	This project envisions a South East Wales that has a rich and growing biodiversity resource valued by local people who engage with it for their health and well-being. Activity will also contribute to halting and reversing biodiversity decline and increasing ecosystem resilience in South East Wales.	£1,293,568.33	£0.00
Total (10)			£9,289,714.03	£4,190,089.60
