## Completed Small Scale Revenue Grants:

Lead Partner	Project name	Project Summary	Total Funding awarded by Welsh Government	Match Funding
Buglife Cymru	Buglife Cymru - Pollinators and freshwaters	The grant will be used to develop new projects and partnerships to deliver our two strategic themes in Wales: <ol style="list-style-type: none"> <li>1. Pollinators - develop new delivery partnerships for B-Lines, and support the delivery of the Action Plan for Pollinators in Wales.</li> <li>2. Freshwater - improve the quality of our freshwaters, to safeguard freshwater invertebrates in Wales and to improve public engagement with freshwater invertebrates and their conservation needs.</li> </ol>	£31,702.00	£9,800.00
Plantlife	Back From The Brink Cymru	Back from the Brink will establish and develop a partnership project to recover suites of threatened species, through integrated land management plans, in strategic landscapes across Wales.	£39,764.00	£22,421.00
Conwy County Borough Council	Parks for All / Parciau i Bawb	The project will bring local communities, the third sector and Conwy County Borough Council together to look at how their Play Parks can be accessible to all, contributing to good standard of local environmental quality and developing a sense of place and community that residents can be proud of.	£33,000.00	£0.00
Powys County Council	Don't Dump It, Donate It! Towards a Fly-Tipping Free Powys	Working closely in collaboration with our main project partners, local social enterprise Phoenix Furniture Scheme in Newtown and Ystradgynlais Volunteer Centre, we aim to improve local environmental quality and deliver cross cutting benefits around job creation, local enterprise, social exclusion, poverty and climate change.	£40,000.00	£40,000.00

Wildlife Trust of South and West Wales	Wales Resilient Ecological Network	Our project will formulate a framework for collaboration which will promote biodiversity and improve ecosystem resilience through developing a pan Wales approach for the effective sustainable management of invasive non-native species (INNS) in a strategic, prioritised and joined up way.	£39,996.00	£30,000.00
Brecon Beacons National Park Authority	"Vital Signs" Development Project / Prosiect Datblygiad "Argoed Bywydol"	This programme will include projects co-delivered by mixing professional conservationists and specialists with volunteers and citizen scientists. These projects will improve community capacity to influence and achieve nature recovery directly through place-based projects and activities.	£29,120.00	£22,250.00
Rhondda Cynon Taf County Borough Council	Hirwaun Industrial Estate – A Place Based Approach	This project will be a collaboration to develop enhanced stakeholder relationships to create practical collaborative environmental solutions and recommendations in the form of a Strategic Environmental Master plan, acting as a catalyst to realise the environmental and well-being ambitions of the site.	£39,640.00	£0.00
Brecon Beacons National Park Authority	Waterfall Country – Partnership Development	Brecon Beacons National Park Authority wish to develop a Partnership that will plan, organise and implement investments that will enable people to enjoy the wonderful recreational and tourism opportunities, without damaging the internationally important wildlife habitats.	£40,000.00	£5,000.00
Butterfly Conservation Wales	Working together to create resilient rhôs pastures	The development of new collaborations between local authorities and third sector organisations (spanning the South Wales Coalfield from Caerphilly in the east to Carmarthenshire in the west) to achieve more effective management of these rich habitats as well as helping improve the well-being of local communities through better appreciation of the diverse wildlife on their doorsteps.	£22,633.96	£11,550.00
Vale of Glamorgan Council	Green Trails - Bridle and Bike Network	A plan for the delivery of a long distance horse and mountain bike trail that links hubs of bridleway access across the programme area. The project will establish collaborations with local, user and nature conservation groups towards delivery, and to develop trails as wildlife corridors.	£38,632.01	£0.00

Ecodyfi	Dyfi Biosphere Outdoor Health Network	The project aims to build a collaborative network of health, environmental and tourism practitioners in the Dyfi Biosphere area who will increase opportunities for social prescribing and pilot outdoor nature-based activities; bringing health and wellbeing opportunities to people while improving the local environment.	£39,956.00	£0.00
Isle of Anglesey County Council	North Anglesey Action Plan	A new partnership approach is required to develop a holistic strategy and action plan to address a number of environmental and well-being challenges that North Anglesey faces. The first phase of the programme will be to broker the partnership and draw up the strategy, action plan and prepare funding bids for implementation.	£37,921.00	£0.00
Welsh Water Dŵr Cymru	Brecon Beacons Mega Catchment	The Brecon Beacons Mega Catchment concept acknowledges how much the Brecon Beacons provides for Wales at a landscape scale. It encourages stakeholders to work together to co-create a common vision to deliver the best possible outcomes for everyone who lives, works and benefits from the Brecon Beacons.	£40,000.00	£20,000.00
Small Woods Association	Green Health and Access West Wales	This one-year pilot project brings together partners across Carmarthenshire, Pembrokeshire and Ceredigion. It's objectives are to investigate current green space provision for local communities, support providers of green health initiatives to promote best practice and work directly with the health sector, raise the profile of social prescribing to 'nature-based health care' and build strong partnerships between the healthcare and environmental sectors.	£39,996.00	£0.00
<b>Total (14)</b>			<b>£512,720.97</b>	<b>£161,021.00</b>
