Dear

## **ATISN 15725 Request for Flying Start Information**

### **Information requested**

Thank you for your request which I received on 29 November. You asked for:

- 1) How much money has each local authority received for the Flying Start programme in the 2020-21 financial year?**

*We interpreted this question to mean the revenue allocation awarded to each local authority to support the delivery of Flying Start in 2020-21.*

- 2) In addition how much money has each local authority received for said programme since 2012-13? (broken down by each financial year).**

*We interpreted this question to mean the revenue allocations awarded to each local authority to support the delivery of Flying Start every year since 2012-13.*

- 3) The total number of children currently registered on the Flying Start programme.**

*We interpreted this to mean the number of children who benefitted from Flying Start services for 2020-21 (the last full year of programme data available).*

- 4) The amount of capital expenditure for the periods 2019/20 and 2020/21 broken down by the number of schemes in each Local Authority area.**

For 'schemes', we interpreted this to mean individual capital projects.

- 5) The number of settings run by A) Local Authority B) Third Sector C) Private Sector.**

*For 'settings', we interpreted this to mean childcare settings.*

- 6) The total funding retained by each Local Authority for the running of the Flying Start programme including the total number staff employed and the total number of hours.**

*We interpreted this to mean the total revenue funding used by local authorities to deliver Flying Start including staffing and management costs and workforce information including hours worked.*

## Our response

Following a search of our paper and electronic records, I have enclosed the information held by Welsh Government in relation to this request.

Please note that the information requested under questions 2, and 5 are provided as annexes for ease of reference. Where contextual information is required to aid understanding of the information provided, this is also included as part of our response to each question below.

1. The Flying Start programme is delivered through the Children and Communities Grant (CCG). The grant offers a flexible funding approach, which enables Local Authorities to make decisions on how best to plan and deliver the seven early intervention and prevention programmes to its most vulnerable citizens, ensuring local needs are met. **Local Authorities are responsible for making decisions on how they utilise their overall CCG allocation to deliver each of the seven programmes. With this in mind we are unable to provide a specific amount allocated to Flying Start for 20/21 as this is up to the Local Authorities to determine.** I have therefore included the CCG breakdown in the table below:

Local Authority	Children and Communities Grant Full Allocations 2020/21
Anglesey	£2,865,556
Blaenau Gwent	£4,717,726

<b>Total</b>	<b>£142,671,873</b>

2. Individual Flying Start allocations are only available prior to the introduction of the CCG in 2019/20. This means that I am only able to give you information relating to Flying Start allocations between 2012-13 and 2018-19, these are provided at Annex A. I have also provided CCG allocations by Local Authority for 2019-20 to 2021-22 for completeness.
3. Information relating to the delivery of Flying Start is collected from Local Authorities as part of routine monitoring arrangements. Monitoring data for Flying Start shows that 31,832 children benefitted from the programme in 2020-21.
4. The following table provides details of the number of Capital projects undertaken and the total capital grant received by each Local Authority in 2019-20 and 2020-21.

5. Childcare Inspectorate Wales (CIW) records show that there are 461 providers registered for the delivery of Flying Start across Wales, however

these are not broken down under the headings you've requested. Therefore, I have included a full list of settings registered for the delivery of Flying Start at Annex B.

6. *The total funding retained by each Local Authority for the running of the Flying Start programme including the total number staff employed and the total number of hours.*

This information is not held by the Welsh Government as under the flexible funding approach (see response to question 1 above) each Local Authority is responsible for managing their CCG allocation.
