

Dear Rhys Spencer,

Thank you for consulting the Department on the additional information and variation submitted by the applicant in respect of this DNS application.

As a Specialist Consultee, the Department does not wish to make further representations on the additional information and variation at this point. The Department will however address matters in our hearing statement accordingly.

I can confirm that the Department wishes to maintain our **OBJECTION** to this planning application as detailed in our response letter dated 16th July 2021. This objection is made solely on the basis of impact upon the national agricultural interest, and is made independently of other parts of Welsh Government that may wish to exercise a remit to comment upon this planning application.

Regards

Arwel Williams
