Hi

--- was warned (in writing):

[information removed here was relating to a different matter].

2020 – that action could involve prosecution (referral to CPS), a cross-compliance breach, a warning, or no further action.

He was also repeatedly warned verbally by myself after various visits to not carry out any of the unauthorised activities again.

Best wishes,

Fiona

Hi RPW official 2,

I have attached the relevant documents that contain our communications with Mr Hughes.

[information removed here was relating to a different matter].

As regards track creation, this is not specifically detailed as such, prior to the notification of my inspection on 2020-01-07.

[information removed here was relating to a different matter].

The relevant communications are listed below:

[information removed here was relating to a different matter].

2020-01-07 – email (and letter) advising that notification has been received that an unauthorised track has been created and drainage works carried out and an inspection will be made.

2020-01-07 – visit record form detailing conversations with Mr Hughes before and after the unauthorised works inspection visit.

Best wishes,  
Cadw official 2

One last thing, the breach has been classed as intentional and will therefore attract a penalty of 35% - which means a likely appeal.

One more thing (hopefully) – I have written up the breach in our report and sent to my manager for checking, he says all is good apart from the fact that the field numbers affected by the MAIN breach are not included.

I have attached a map of the holding, are you able to provide me with the field numbers where damage occurred for the MAIN breach?

Many thanks  
RPW official 2

If you haven't heard of one then the answer to my question is no.  
An IACS7 is a form we leave with the farmer/claimant with initial findings of the visit.  
Maybe you should have copies, perhaps you can ask Robin.

RPW official 2

Not that I am aware of. Not heard of an IACS7 before – what is it?  
Cadw official 2 - did you leave one?

Hopefully a simpler question this time.

Do you know if Cadw official 2 left an IACS7 with Mr Hughes on the day of inspection noting her initial findings?
