Hi

WG are happy with the revised report to be made final. Could you provide a final version of the report please? Could you also draft the RSA 1/2 brief please? WG have also asked if you can forward the suggestion for a litter bin to your colleagues within the authority who would have responsibility for such matters

Please find attached a pdf copy of the report (this includes all the drawings – but no comments are shown)

I've also attached the latest version (Draft V2) as Word, so you and lolo can see the comments and responses, plus identify the new sections of text.

As I stated in our phone conversation, I'll be on leave next week – return Wed 22nd so if you need something amending more urgently, please contact Richard.

Please review and add/comment – if content with this version, we'll issue as a final copy.

Further to my last email, the report has been reviewed by WG and i've attached a copy of the report with both of our comments which i hope are self-explanatory. Can you revise the report following our comments please?

If you need to clarify anything, please give me a call.

Apologies again for the lateness of the draft version of the report.

I've attached a pdf copy of the full report and appendices plus a Word copy.

Can you please review / amend / correct / comment on the Word version with tracked changes so it will make finalising the report easier.

Firstly, apologies for not responding to your previous email – it's been rather busy of late trying to get Aston Hill out.

Back to your question – I hope to get something over to you later this week – I trust that's ok?

Will do.

Which option shall be considered in the RSA1/2? Is it our recommended noise screen?, or one of the other options?

I've had confirmation from WG that they are happy with the recommendation for the noise fence.

I've also discussed that an RSA wont really be required for noise fencing so could you issue a CE removing the RSA from the activities and I'll reject the recent CE you have raised due to the commission being substantially complete.

From: Denbighshire

Subject: RE: Rhesgoed Bends Layby Assessment

I am aware of which one we've recommended, but this only will mitigate the noise and visual intrusion.

If the other aspects raised in the complaints need to be addressed, then a closing option is needed.

Please see attached original correspondence raising this issue. Unfortunately it does not specify time or day of week when problem is present.

I attach link to Google maps of location, it is approx. 600m towards Rhuthun from Clwyd Gate hotel, near the access to Rhesgoed Farm.

Subject: ASB - A494 Llanbedr DC

I have been forwarded some details about reported anti-social behaviour taking place within a lay-by on the A494 at Llanbedr DC. This came to myself via Inspector Dave Chow who I believe had provided some input from a police perspective. I am just arranging some patrols of the location but unfortunately, the email thread I was sighted on did not contain much detail in terms of what has been happening; the exact location of the layby and also any detail around what days / times it is occurring.

If you could let me know some background, I will make sure it is added to our patrol plan.
