Hi Julie,

Many thanks to both of you for your comments – much appreciated. I've sent on combined comments to ADAS to consider further.

Regards

Arwel.

Ian/Arwel

Attached are comments from Eleanor and myself so that you can get back to ADAS this week. There may be a couple more references that could be worth following up?

Kind Regards

Julie

Subject: FW: The impact of solar PV sites on agricultural soils and land - WP1 Literature Review- FOR COMMENT PLEASE BY FRIDAY 24 SEPTEMBER

Hi Julie, Gill & Eleanor

FW: The impact of solar PV sites on agricultural soils and land - WP1 Literature Review- FOR COMMENT PLEASE BY FRIDAY 24 SEPTEMBER

Please find attached the report on WP1 of this research (literature review) prepared by Ruth Metcalfe. I would be grateful for comments as soon as possible (end of next week?) so we can keep to deadlines. I've attached my comments in the report which should save time hopefully. Compared to the soil formation, drought and wetness reports this is a fairly short and easy read. It should only take about an hour to review. I think Ruth had done a good job and will be interested to see what you think.

I'm on leave next week, so could you please copy Arwel in on any reply so we can get this back to ADAS as soon as we can.

I'm about today if you had time and want to discuss.

Many thanks

Ian

Subject: The impact of solar PV sites on agricultural soils and land - WP1 Literature Review

Hi Ian, Arwel,

Please see attached Ruth's draft WP1 literature review. It would be good to have your thoughts as soon as possible so we can try and make any alterations in the required timeframe.

Best regards,

Martin
