### Some other useful resources

- Someone asked about courses for adults – there are lots of options. We have a free online course here which gets into some of the competences: <https://globalcitizen-learninglab.com/index.php/en/courses/sdgs4u/>. If you have access to Learning@Wales e-learning, you can access the global citizenship modules Oxfam Cymru and WCIA created for NHS staff with Public Health Wales. CAT do a [range of sustainability courses](#).
- If anyone is interested in developing a more bespoke set of global citizenship resources in their organisation, give me a shout.
- They are designed for schools, but Oxfam's global citizenship guides for schools and teachers are a useful starting point for understanding some of the competencies and tools of global citizenship: <https://www.oxfam.org.uk/education/who-we-are/global-citizenship-guides/>
- There are lots of resources accessible from the UNESCO website: <https://en.unesco.org/themes/gced>

### Want to know more or get involved?

- I chair the Wales Alliance for Global Learning which is open to anyone who is working on/passionate about Education for Sustainable Development and Global Citizenship
- WCIA are in the early days of working with some partners to improve recognition of people for developing their ESDGC competencies in lifelong learning, and looking at the possibility of developing a competency framework for Wales in ESDGC – very early days but let me know if you are interested in getting involved
