

Llywodraeth Cymru
Welsh Government

Dear Sir / Madam

Please find the following information that can assist you in becoming a supplier to the Welsh Government.

A key component of its commitment to the 'Wales Procurement Policy Statement' is that Welsh Government (WG) advertises all of its tendering opportunities above £25,000 through www.sell2wales.gov.wales.

In addition, it is also WG policy that only suppliers registered on www.sell2wales.gov.wales are invited to quote for work below £25,000.

Sell2wales is an advertising portal for contract opportunities that is also used widely by a wide range of Public sector organisations.

Sell2wales is intended to make it easier for suppliers to work successfully not just with the Welsh Government but with the 100+ other Welsh public sector bodies such as local authorities, health trusts and boards, colleges and universities, the police and fire services, and many others.

- The free and simple online registration process allows a supplier's details to be made available to all registered organisations and gives instant access to information on those organisations.
- Suppliers register on the website indicating the specific goods or services they can offer and/or the kinds of work they are interested in,
- They automatically receive e-mail details of relevant tendering opportunities.
- Full guidance on registration is available on the website.

If you have not already done so you should immediately register your details at www.sell2wales.gov.wales to find out about the varied contract opportunities available on the website.

If you have already registered as a supplier, please ensure that your registration details (especially your contact details, profiles and keywords) are kept up to date.

I hope you find this information useful.

Kind regards

Welsh Government
