Subject: RE: Ministerial submission: NRW regulatory charging scheme 2023/24

Ministerial

NRW Consultation

NRW proposed and

Attachments: Submission - NRW R€ Response Document | current charges - revi:

Hi 'Redacted (NRW)'

Hope that you are well.

You will be pleased to know that the Minister has made a decision following her consideration of your Consultation Summary on your Charging Proposals along with your Final Proposed Charges for 2023-24.

I can confirm that the Minister has approved NRW's final proposed charges for 2023-24, which includes the introduction of species licensing waivers and the continuation of waivers in water resources; and the new tool and associated new banded charges during 2023-2024, following a satisfactory consultation with the relevant chargepayer's.

Grateful if you can go ahead with the necessary arrangements to commence applying these proposed charges from 1 July 2023.

I am in the process of prepare a written statement for the Minister to issue in relation to her decision regarding the SROc programme and her approval of NRW's proposed charges. I will loop back in with you and your team once the Minister has agreed this statement.

In the meantime, happy for our comms team to work together.

Kind regards

Nath
