Information requested

Thank you for your request which I received on 14 September 2023. You asked for:

Can you please provide details of all planned new permanent speed cameras intended to be installed throughout Wales, or that have already been installed over the past 6 months that are specifically intended for use on roads with a 20 mph speed limit. Data to include their current, or planned locations, and the exact type of camera to be installed?
2. Can you please provide details of locations of existing 30 mph speed cameras that are being converted to 20 mph operation and what testing has been undertaken to verify the accuracy of converted cameras?
3. Can you please provide details on any increase in the number of mobile speed cameras, and the areas in which GoSafe will be basing those new vehicles?
4. Can you please provide the budgeted costs for all the above items, along with the actual costs (where new cameras have already been installed, or new vehicles purchased)?
