Dear

## **ATISN 18987 – Road traffic accidents**

### **Information requested**

Thank you for your request which I received on 15 September 2023. You asked for:

1. The number of pedestrians that were killed in Wales as a result of a police recorded road traffic collision in 2022.
2. How many of these deaths were a result of vehicles travelling between 20mph and 30mph?

### **Our response**

We routinely publish statistics relating to the [casualties of police recorded road collisions](#) on our website. These statistics are available by a number of different breakdowns, including [the road user of the casualty](#). In 2022, 19 pedestrians were killed in Wales as a result of a police recorded road traffic collision.

The speed that vehicles were travelling at the time of a collision is not recorded by police officers when attending a collision. As a result, we do not hold any data that would enable us to answer the second part of your request. However, [our annual road collisions publication](#) includes information on the speed limit of the road, which you may find useful.

### **Next steps**
