Hi Information redacted

Many thanks for this; you've provided a very clear and succinct summary of the site's history and significance and I agree that it is worth inspection. Incidentally, I know this site as the transmitter hall used to be a climbing wall - I suspect it is no longer in use, as the climbing wall moved to new premises in Caernarfon, and I think the Chamois Mountaineering Centre, which occupies the former accommodation block just provides accommodation for mountaineering groups etc. I am happy to endorse your recommendation for an inspection, but as there doesn't appear to be an immediate threat, perhaps we could discuss the question of prioritisation with Information redacted once he gets back.

Thanks again

Information redacted

Information redacted

This is a desk assessment of a request for both listing and scheduling for the Waunfawr Radio Station. It has already been recommended for scheduling by GAT who also recommend listing some of the main buildings. I've put the GAT report on the file. Its not under threat at the moment but I think it should be treated as a priority case and needs a joint visit by Information redacted and Information redacted.
