Dear

Request for information - ATISN 19193

Thank you for your request which I received on 22 October.

Your Request

You asked for the following information regarding road marking modifications in Radyr/Morganstown:

Following the recent adoption of the 20mph default speed limit in Wales, I noted that works were carried out in both Radyr and Morganstown to remove the red strips of tarmac which carried the 20mph symbols. These were introduced several years ago when the village was made a 20mph zone as a part of the trials. The work involved grinding down the road surface, removal of the material produced and then patching the area with new "standard" black tarmac.

Could you please provide, by email response to this address, a breakdown of the costs of this work in the village and the reason for this work being carried out.

Our Response

I can confirm that some of this information is already available in the public domain. The costs for all the traffic sign costs across Wales is included in the [Explanatory Memorandum and update to RIA](#). I would advise you to approach Cardiff Council for the breakdown of the specific amounts spent in the county as we do not hold this information:
