Notes

- This movement document meets the reporting requirements of:
 - the Sheep and Goats (Records, Identification and Movement) (Wales) Order 2015 (SAGRIMO); and
 - Article 4 of Council Regulation (EC) No.1/2005 on the welfare of animals during transport and related operations which requires transporters to carry documentation, referred to in the United Kingdom as an Animal Transport Certificate, recording the origin and ownership of the animals, place of departure and arrival and certain information allowing journey times to be checked and assessed.
- All fields on the movement document must be completed to comply with paragraph 1 above.
- It is the CPH of the premises from which the animals are departing, and to which they are travelling, that must be recorded on the form. The address must accurately reflect where the animals are moving from and travelling to.
- This document serves as a **single** movement reporting document. Each stage of a multiple move must be completed on a separate movement reporting document.
- Where Section 1 has not been completed by the departure keeper, it must **not** be completed by the keeper at the arrival holding. EIDCymru and/or Local Authorities will contact the departure keeper for that information.
- Vet Attestation Number (section 3) – enter this 20 digit number (provided to you by your vet after an animal health visit). Without it meat and products from the animals might not be eligible for export, see example below.

Vet Attestation Number (VAN), enter all 20 digits below																				
1	2	3	4	5	6	7	Vet's RCVS no.													
2	2	3	3	3	4	4	4	4	CPH no.				0	9	2	4	Expiry date			
- Other requirements relating to the movement of sheep and goats are contained in the Disease Control (Wales) Order 2017 (as amended) and the General Licence for the Movement of Sheep and Goats. Details can be found at www.gov.wales/keeping-farmed-animals
- Copies of this form can be found at www.gov.wales/sheep-and-goat-movement-document-aml1 or available from EIDCymru bureau service 01970636959.
- The keeper at the arrival holding must keep a copy of this movement document for 3 years.
- Expected duration of journey is from the time the first animal is loaded at the place of departure until the time the last animal is unloaded at the place of arrival including any rest times or stops for any other purpose en route.
- All moves into a Quarantine Unit must be reported electronically via EID Cymru within 24 hours. For more information, please go to www.gov.wales.

This document may be retained by keepers as an alternative to completing records of OFF movements in their holding registers.

Food Chain Information (FCI)

- Sheep and goats on the holding are not under movement restrictions for animal disease or public health reasons (excluding any 6 day standstill).
- Withdrawal periods have been observed for all veterinary medicines and other treatments administered to the animals while on this holding and previous holdings.
- To the best of my knowledge the animals are not showing signs of any disease or condition that may affect the safety of meat derived from them.
- No analysis of samples taken from animals on the holding or other samples has shown that the animals in this consignment may have been exposed to any disease or condition that may affect the safety of meat or to substances likely to result in residues in meat.

Additional FCI
