When we receive your request to vary the application PEDW has 5 working days to confirm whether the principle of the variation has been accepted by the Inspector. If it is not accepted, the application will be examined on the basis on which it was originally submitted. If it is accepted, you will be given 28 days to submit full details and supporting documentation. The determination period will be suspended for these details to be submitted, and to allow PEDW to undertake appropriate consultation on them. If the principle of the requested variation is accepted, it is still open to the Inspector to reject the variation when the full details are received if they consider it constitutes substantial change in the nature of the development for which planning permission is sought. In this scenario, the application will be examined on the basis on which it was originally submitted.
